## EXECUTIVE SUMMARY

Tarime Town Council like any other councils in Tanzania is obliged to fulfill its functions as stated in section 111 of the Local Government (District Authorities) Act of 1982, the council requires strategic decision making to trigger sustainable local economic development through effective implementation of this strategic plan. The Town Council is influenced by the external and internal changes that have a bearing in efficient operationalisation of the council's deliverables. The (2013/2014-2015/2016) strategic plan is prepared to enhance Town Council ability to respond community's demand and effectively carry out its core functions. The plan is also expected to efficiently optimize the use of the limited and competitive resources while seizing the emerging development opportunities. Participatory approach was used during preparation of strategic plan whereby a wide range of stakeholders from the council were involved in the process and a systematic decision making with multi stakeholders was done. This was necessary to enhance ownership and acceptability to stakeholders so as to have smooth implementation of the plan. However, in promoting sustainable livelihood of its people Tarime Town Council has developed the Vision, Mission, core values, strategic objectives and targets which will be implemented to provide a framework in actualization of the (2012/2013-2015/2016) strategic plan. **The Vision:** The vision of Tarime Town Council is to ensure that its people maintain peace, good governance and have sustainable development by 2025. **The Mission:** Tarime Town Council is committed to provide quality socio-economic services to its community through adhering principles of good governance, effective and efficient use of available resources for sustainable development.

In achieving its Vision and Mission, Tarime Town Council has 9 strategic Objectives which are: Improved services and reduced HIV/AIDS infections, Increased quantity and quality of social services and infrastructure, Improved access, quality and equitable social services delivery. Enhanced, sustained and effective implementation of the National Anti-corruption strategy, Enhanced good governance and administrative services, Improved emergence preparedness and disaster management, Improved social welfare, gender and community empowerment, Quality and quantity of economic services and infrastructure improved as well as natural resource and environment improved. For effective and efficient implementation of the strategic plan the Town Council has developed core values which provides the does and don'ts during implementation of the plan, the core values are: *Integrity, Courtesy, Accountability and responsibility, Impartial, Transparency and Customers focus/driven.*

With respect to implementation, Monitoring, Evaluation and review framework; The Town Executive Director (TED), who is the Chief Executive Officer of the Council, shall be responsible and accountable for the implementation of the Tarime Town Council's 2012/13 – 2015/16 strategic Plan. The TED, with the support of the Council Management team, shall regularly report to the Full Council with regards to the plan implementation and its overall performance.

## **Statement of the Town Council Chairman**

The Tarime Town Council is committed to achieving the Millennium Development Goals (MDGs) and the achievement of the Tanzania Vision 2025, achieving the Tanzania Five Years Development plan 2015, and the National Strategy for Growth and Reduction of Poverty II (NSGR II).

The Millennium Development Plan, 2005, equates targets such as reduction by half of the proportion of people living on less than US\$1 per day, with human rights. Universal primary and secondary education is also now seen as a basic human right. The challenge faced by the council is to translate a broad vision and grand statements into authentic change, the sort of change that the average community will be able to observe for themselves on the ground, in communities, dispensaries, schools, and in the natural environment.

Globalization also brings with it international agenda, good governance is a case in point. The Government has embraced this with a clear policy on decentralization by devolution. In short this involves empowering Tanzanians through strengthened local government authorities, which will be better placed by virtue of their proximity to the people, to reflect local priorities and needs in their programmes, improve services and contribute to the reduction of poverty. In this case Tarime Town Council would like to see its people are well educated with sustainable and better livelihood.

The third phase Government has prepared MKUKUTA cluster three and eight MDGs. MKUKUTA and MDGs make cognizance of international agreements, goals and targets, but perhaps more importantly represents the views and aspirations of Community themselves, particularly those living in difficult conditions. The reduction of poverty is priority number one.

Through the implementation of this Council Strategic Plan will reflect through sound National policies articulated in the 2010 CCM Election Manifesto, MKUKUTA II, MKURABITA and the participation and commitment of Community themselves. Also, it will improve services and reduce poverty significantly through the strategic plan of 2013/2014 - 2015/2016. To that end, my personal commitment and that of Town Council management and staff is assured.

.....  
*Hon. Daud Wangwe*

**Council Chairman  
TARIME TOWN COUNCIL**

## **Statement of the Town Council Director**

The Council three year Strategic Plan is an institution's broad direction forward which helps the council decide what it wishes to achieve and the main actions to undertake in future. In the preparation of this document the council has involved management and consultations with a wide range of stakeholders. It is believed that this strategy will provide an opportunity to address fundamental questions, to focus away from day to day operations and take initiatives to improve performance.

This strategy has outlined why Tarime Town Council exists, the eight objectives, the client expectations from the council services delivery and how the council will measure its performance. This strategic plan is a living document and will be updated and improved from time to time. What is being presented here represents the results of consultations, review and discussions over a period of four months. While it does not represent an enormous departure from what was already in place, but it reflects the changed policy and environment in Tarime Town Council, as well as the clearly laid out strategies of the Fourth Phase Government. After the government has established the decentralization by devolution (D by D) it has made the council with full autonomy to run its obligations and bring efficiency during implementation. We expect the Central Government will remain with policy formulation and the council will be delivering services to the community acting as the implementing agency of central government policies.

In order to implement this strategic plan, close teamwork is required. Many objectives, targets, activities and strategies are expected to be achieved in three years to come. With the capacity of staff we have in the Town council, we believe that all strategic objectives set in the strategy will be achieved hence poverty reduction to the community. Given that Tarime Town Council is a Local Government's effort to fight against poverty and thousands of people are relying on us. Failure is not an option. Therefore I beg and invite all stakeholders and other development partners to join hands with renewed vigor for the good of our community.

.....

*Venance Mwamengo*

**TOWN DIRECTOR**

**TARIME TOWN COUNCIL**

## CHAPTER ONE

### BACKGROUND INFORMATION

#### 1.0 Location and boundaries

Tarime Town Council is among newly established Council in Mara region, it was formally operated as Township Authority within Tarime District Council. The Council lies between Latitude 1°17' - 1°25'S of the Equator and Longitude 34°17' - 34°27'E of the Greed Meridian. The Town Council is situated between 1500 Mean Sea Level and 1600 Mean Sea level. It has got an area of 147 km<sup>2</sup>. It is boarded by Kimusi stream and Mori river East wards, Tarime Hills on the South West, Msege stream on the North West and Msati stream as well as Mori river on the North East of the Town. The Council Comprises of 2 Divisions, 6 Wards, 14 "Mitaa" and 13 Villages. Tarime Town Council is situated along the main road Mwanza-Musoma to Nairobi – Kenya. It is also nearby with strategic business centers like Nyamongo Mining area, Sirari border and Shirati Centre. The Council is also the junction center from Nairobi, Kampala and Mwanza to Serengeti wild life.

#### 1.2 Population Size and Growth

According to National Census 2012 the Council has a total population of 78,037 of which 37,136 are males and 40,901 are female. The annual population growth rate stood at 2.7% with average household size of 5 people.

**Table 1: Population Distribution of Tarime Town Council**

SN	Ward	Sub Total	Male	Female	Household size
1	Turwa	27,238	13,010	14,228	5.4
2	Bomani	9,165	4,621	4,544	5.5

### **1.3 Ethnicity**

Tarime Town council is dominated by two tribes namely: Kurya and Luo tribes. However, other tribes residing in the council includes Jita, Chaga and Haya. Most of people speak Swahili Language and some of them are using vernacular language of “Kurya”, “Luo” and “Jita” basing on their origin.

### **1.4 Climatic Condition**

Tarime Town Council is experiencing moderate type of rainfall which falls in two seasons starting between August to November and February to May each year. The amount of rainfall ranges approximately 1300 to 1800 mm. Tarime Town is characterized with temperature varying from 16<sup>0C</sup>-20<sup>0C</sup>.

### **1.5 Physical features**

Tarime Town Council has one ecological zone called the highlands. Topographical features and natural vegetation is mainly characterized by sand and alluvial soil.

## **CHAPTER TWO**

### **SITUATIONAL ANALYSIS**

#### **2.0 ANALYSIS OF INTERNAL AND EXTERNAL ENVIRONMENT**

##### **2.1 Overview**

In promoting sustainable development for a new Town Council like Tarime, the council needs to take a hard look at itself (Self evaluation) on where the council came from, where it is now, where it is going and what are its choices for the future development of its people. In order to assess the existing situation, comprehensive information was collected to determine the external and internal environment in which the council will be operating through.

This chapter therefore, presents the features of existing internal and external environment which have a bearing to the operations of Tarime Town Council. The analysis of internal environment dwells on analysis of the current situation of the existing service areas. While the analysis of external environment covers overviews of international initiatives, national policies and strategies that have a bearing on operations of the Council. The chapter winds up with a summary of strengths, weaknesses, opportunities and challenges based on the analysis of the internal and external environments.

#### **2.2 Analysis of Internal environment**

##### **2.2.1 Planning Statistics and Monitoring**

Planning, Statistics and Monitoring is among of 19 departments of Tarime Town Council which comprises three sections namely: Planning and Administration, Statistics, Monitoring and Evaluation. The department forms a technical team and think tankers of the Town council. The department is a Coordinating sector of development activities to the community. It ensures that all development activities planned are implemented according to budget and shows actual value of money. Planning, Statistics and Monitoring has three staffs that involve one head of department and two Economists. The department has 1 computer laptop, 3 printers and 2 tables. However, the department is facing shortage of equipment and tools such as computer desktop, scanner computers laptop, tables, chairs, file cabinet, Photocopy machine and motor vehicle. shortage of key staff especially statistician, Poor management of information system, lack of motivation programmes to the people, diminishing income on the part of the council, minimal council budget ceiling and untimely disbursement of development funds from central government

The Core Functions of the department include:

- To coordinate and Monitor preparation of Council Planning and Budget.
- To ensure that departments and sectoral plans and budget are implemented accordingly.
- To create and innovate, preparation and monitoring of development planning system.
- To prepare Council Strategic plan.
- To disseminate development policy and opportunities to the community.
- To prepare investment plans for the future development.
- To prepare development report.
- To prepare monthly, quarterly, and annual reports.
- To update sector priorities for the economic growth.
- To implement and maintain national data collection and storing system.
- To conduct data collection analysis and storing by using LGMD data base at Council level and to conduct monitoring and evaluation of the development activities.

### **2.2.2 Human Resource and Administration**

Administration and Human Resource Department is among of the department forming technical team of Tarime Town Council. The main function of the department is to administer administration and management of human resource in the council. Specifically the department has the function of: Monitoring/ and implementing of laws, facilitating in-service training, preparing meetings schedules and to monitor their implementation, to construct ward and village headquarters, to construct council headquarter, to employ workers according to departments needs and to monitor availability of working tools. Since the department is an overall in charge of human resources in the council it provides a total number of staff existing in all service areas of the council from the town headquarter to village/mtaa level. The council has a total number of 5 office assistants, 1 record management, 13 security guards, 1 human resource officer, there is no head of department and sections. At ward and village level, there are 13 Village Executive Officers and 6 Ward Executive Officers. There is a serious shortage of staff in the council as there are deficit of 13 office assistants, 6 record management, 5 security guards, 2 human resource officers, 18 head of departments and sections and 6 Village Executive Officers. The council is also facing inadequate working facilities such as office tables, chairs, computer and printers, motor vehicle, motorcycle, file cabinet, shelves and scanner, low council income necessitates high dependency on grants from the central government and development partners, Inadequate skills of project management in some sectors, Lack of community awareness on community participation based projects, and poor interdepartmental network ,

### **2.2.3 Agriculture, Irrigation and Cooperatives**

The department was established with the mandate of managing and promoting issues related to crop production, irrigation and cooperatives. The core functions of the department are:

- To provide extension services to farmers on food and cash crops production.
- To organize farmers to control pests and diseases by using Integrated Pest Management (IPM) techniques and to provide diseases surveillance reports on time.
- To provide trainings to farmers.
- To coordinate agriculture implements and inputs supply to farmers.
- To identify and conduct preliminary survey on suitable land for irrigation.
- To guide small scale farmers on water use efficient and proper use of agronomic aspects in the irrigated field.

- To empower farmers to establish agriculture infrastructures such as crop stores, feeder roads, market shed and milling machine in their respective areas.
- To provide guidance, advice and establishment of cooperatives and to monitor price trends on agriculture produce in Tarime central market.

For the case of staffing, the Agriculture, Irrigation and Cooperative department has head of department, two Agriculture officers, One Cooperative officer, Two ward extension officers and Four Village Extension Officers. The council is facing a crisis of staff especially in the Village and Ward Extension Officers; most of villages and Wards lack extension officers. In total, Four Ward Executives Officers and Nine Village Executive Officers are required to meet the staffing level.

### 2.2.3.1 Agriculture

Agriculture is among of the major economic activities in Tarime Town Council. The industry serves 90 % of the council's population in income generation for running the day to day activities. However, majority of the population (about 90%) depends mainly on traditional rain fed subsistence agriculture. Therefore, the responsibility of this sub section is to support farmers to increase productivity and food security and improve their standard of living. For smooth operationalisation of its activities the subsection is divided into two units: the unit of Crop production and Extension services. The major cash crops grown in the council are coffee and tea, the main staple food includes: maize, cassava, beans, sweet potatoes, sorghum groundnuts and banana while vegetables such as kale, tomatoes, eggplants, cabbage, amaranths, and watermelon are widely grown in the Council. Agriculture is constrained with lack of reliable markets for food crops. Low production which caused by: Inadequate use of proper crop husbandry such as pest and diseases control, technical knowhow, input /subsidy supply; land degradation which lead to low soil fertility; unpredictable weather condition; untimely cultivation i.e. no proper use of crop production calendar and use of proper implements. Also extension workers are facing shortage of transport facilities and lack of reliable market for food crops

### 2.2.3.2 Irrigation

The Council has rivers and valleys which are suitable for crop production under irrigation. However, currently only 53 hectares are utilized for Irrigation Agriculture in Tarime Town Council. Rain water harvesting provides important irrigation water source especially in Nyandurumo valley. About 8 villages are located in areas which are potential for irrigation farming as shown in Table Number 2 below

Table 2: Land area potential for irrigation in Tarime Town Council

S/No	Village	Potential land Area (ha)
1	Nkongore	53
2	Nkende	100
3	Nyandoto	50
4	Gamasara	80
5	Msati	10
6	Tagota	10
7	Kenyamanyori	30
8	Kemange	20

Source: Tarime Town Council, 2013

The most dominant irrigation type used by many community members is the use of water channels. These channels need to be improved especially through conservation of water sources catchment areas as well as installing water pumps that will allow water distribution to the large area of irrigation group farmers.

### **2.2.3.3 Cooperatives**

The Council has 22 SACCOS, 3 AMCOS and 1 MINNERS SOCIETY. The AMCOS have total of 229 members where by 165 are male and 64 are female with working capital of Tshs 872,690. SACCOS have a total of 2,346 members where by 1316 are male and 1,030 are female the SACCOS has working capital of Tshs 16,414,716. Out of these 22 SACCOS found in the Council about 10 SACCOS are dormant. The remained SACCOS are operating under different difficulties which include: Inadequate capital for SACCOS and AMCOS to buy farmers produce, inadequate knowledge on cooperatives, unstable leadership which cause dispute, conflicts and mistrust and inadequate cooperative staffs.

### **2.2.4 Livestock and Fisheries**

Livestock and fisheries is a new department which was formed after disaggregating the department of Agriculture, Livestock and Cooperative. The department of livestock and fisheries has two main units which are Livestock and fisheries. The main function of the department is to deliver extension services through conducting training on animal husbandry and fisheries, conducting animal treatments and vaccination. To provide extension services to farmers on good animal husbandry practices. To identify and diagnose livestock diseases and measures to control diseases. Supervision of quality safety animal products and livestock feeds. To conduct training for extension staff and farmers as well as vulnerable groups. To coordinate and supervise livestock infrastructures such as Dips, Slaughter slabs/abattoir, cattle crushes and farm structures. Provision of appropriate technology to farmers on livestock production and disease control. To create conducive environment for private sector participation (stakeholders) in promoting livestock extension packages to farmers. To improve livestock genetic potential through artificial insemination. To coordinate with health inspectors to perform meat inspection and abattoir, slaughters lab sanitation. To supervise Dip wash ratio of acaricide and other drugs, To advise livestock farmers to improve livestock production (milk, meat, eggs) and calves rearing. To supervise vaccination programs and treatments to control disease transmission and to collect, analyze and submit livestock data to RAS. All these core functions intend to ensure high quality and quantity of animal and fish products for enhancing food security and income at household level.

Tarime Town Council has a total of 19,203 Cattle. Where by 9,814 goat, 3,969 sheep, 37,935 chicken and 3,369 Ducks. The average of 5840 cattle and 4380 goat are slaughtered per year and their meat is sold locally within the town. The habitants of Tarime Town Council practices (Intensive and Extensive system ) of livestock keeping. The council has livestock border market at Magena that is not operating due to illegal smuggling of cattle and goat to Kenya.

For fishing activity, The Town council has 10 fish ponds which are operating and owned by five farmers. Yields of these fish ponds are yet known because they keep for family consumption. The Council receives fish products from Lake Victoria and Mara River hence a need to perform a daily routine inspection at the market to ensure consumers health. Due to conducive environment for fish farming, few households have established modern fish pond farming in their areas. Fish mongering business is an important economic activity of some people in the town. Within the Town Council areas there are only fishing ponds that allow

fishing activities but most of fish mongers brought fish from Lake Victoria and Mara river situated about 50 km away from the town council.

In relation to staffing, the department has only 4 staffs for livestock unit working throughout the council. The council has 1 Head of department, 1 Meat inspector and 2 Principal livestock field officer. However, the number is not adequate because it is required that at least 1 extension officer is needed for each ward to ensure effectiveness on service delivery. For fishery unit there is only 1 staff (Fisheries Attendant). Also the number is far below the requirement as at least every division should have one fishery expert. For livestock unit, there is no Livestock marketing officer, no Livestock field officer II where 6 are required, no Dairy and Poultry Officer where 2 are required, no Livestock field officer III also 6 are required. For fishery unit the council has no Fisheries Officer where 2 officers are required

The working condition of the department is not conducive as there is only one room which is not enough to accommodate the number of staff. Also the office is not in good condition it requires rehabilitation or to build a new office. There are insufficient working facilities such that the whole department has only 2 tables and 2 chairs. The office has no shelves, no file cabinet, no desk top set, no laptop, no motor vehicle and no motorcycle. The department is also constrained by, Insecurity in some areas due to livestock theft, the Climate change which affect livestock pasture and fishing ground, Inter clan conflict due to land conflicts, increasing population leading to conversion of grazing land into residential areas, Politician vested interest, Livestock diseases outbreaks such as Tick borne diseases, Rabies, and CBPP, and the un demarcated land use for livestock grazing.

### **2.2.5 Primary Education**

Primary Education Department is among other departments in Tarime Town Council as its establishment was to seeing Education policy implementation in order to enable smooth execution and observation of quality education provided in primary schools. The general role of Primary Education Department is to ensure closer monitoring and supervision of schools that will allow efficient and friendly environment in order to improve teaching and learning process. The department provides every possible instructions, rules and regulations accordingly to which leads execution of proper channeled educational policy. Moreover, the department is responsible for coordinating with various related well wishes and stakeholders who are interested to invest in various aspects of education. On the other hand, The Ward Development Committee and School Committee are working jointly on issues pertained to educational matters and development programme in the ward and primary schools level.

The department consists of three units namely; academic unit, statistics and logistics unit, Adult education and non Formal education. Also Sports and cultural section is attached to education department in order to link to school children for promotion of spirit of games and sports for the benefit of Health body and mind.

The core functions of the department are to:

- Ensure legal registration to school age going and school attendance as per education policy.
- Conduct needs assessment, collect data and evaluation on adult education and non formal.
- Conduct data collection for out of school children and children with special needs.
- Ensure proper curriculum implementation in the schools.
- Conduct needs assessment, collect and analyze data on primary education for future logistics.
- Monitor proper and correct use of funds, teaching and learning materials.

- Provide approved measurements for land spacing, infrastructural innovation and expansion.
- Coordinate, evaluate and supervise national examinations at council level and school level.
- Allocate teachers in working stations, and to facilitate them with authorized rights and benefits.
- Monitor and control accountability and discipline matters to teachers.
- Facilitate payments and benefits to teachers as per regulations.
- Supervise sports and games at council level.

The Council has a total number of 32 preprimary schools where 26 are public owned and 6 are private owned. For primary schools the council has a total of 32 primary school where 27 are public owned and 5 private owned. The issues of enrolment and access to both pre and primary schools have been given priority by the council. The enrolment in pre primary schools, a total of 2,157 children have been enrolled in both public and private owned pre primary schools. For public owned pre primary schools a total of 1,861 children were enrolled where by 926 were male and 935 female. For private owned preprimary schools a total of 296 children were enrolled where by 154 were male and 142 were female. In primary schools the town council has enrolled a total of 21,978 pupils. 20,953 pupils were enrolled in public owned schools where by 10,504 were male and 10 449 were female. In private owned primary schools a total of 1,052 pupils were enrolled where by 551 were male and 474 were female.

For staffing in both non teaching and teaching staff, generally the situation is encouraging. However, for non teaching staff the Town Council has a deficit of 1 driver, 1 town education technical officer, 1 town agriculture and live stock education officer. Table 2 below gives a general situation of staffing especially for non teaching staff.

**Table: 2 Number of Non Teaching Staff in Primary Education**

No.	Job Title	Required	Available	Deficit
1	Town education officer	1	1	0
2	Town academic officer	1	2	0
3	Town statistics and logistics officer	1	2	0

For the teaching staff, the town council has a total of 602 grade “A” teachers where by 248 are male and 354 are female. 13 teachers of Diploma holders where 8 are male and 5 are female. 5 teachers of Degree

holders where 3 are male and 2 are female. The Council therefore has a grand total of **620** teaching staff exceeding the demand of 562 teaching staff.

**Table: 3 Number of Teaching Staff in Primary Education**

The physical infrastructures for primary education, the Council has 216 classrooms, 42 teachers houses, 303 pit latrines for pupils, 27 offices, 3 store, 3,965 desks, 182 table, 349 chairs, 77 cupboards, 27 school band set, 3 shelves, there is no library and kitchen. However, the physical infrastructures are not sufficient to enhance conducive learning environment. There is a deficit of 274 classrooms, 578 teachers' houses, 723 pit latrines for pupils, 54 offices, 24 store, 3,483 desks, 830 table, 671 chairs, 459 cupboards, 246 shelves, 27 libraries and 27 kitchens.

Teaching and learning materials is another problem which jeopardize education quality in Tarime Town Council. Currently the existing allotment of text per pupil is (1:4), the central government is conscientious to distribution of texts. Other challenges facing the department includes: drug abuse, early pregnancies and HIV/AIDS contagion, inadequate motivation for teachers, low motivation on sports and games, inadequate in-service training and lack of means of transport.

## 2.2.6 Secondary Education

Secondary Education Department in Tanzania's councils was established in July 2009 as a result of the decentralization by devolution done by the government which aimed to improve monitoring of educational issues in secondary schools at Local Government level. This department initially started with only two officers namely District Secondary Education Officer (DSEO) and District Secondary Education Academic Officer (DSEAO). In July 2012 the government added another officer with the title of Secondary Education Statistics and Logistic Officer (DSESLO). Secondary Education as a department, in Tarime Town Council started in July 2013 with two officers with the titles Town Secondary Education Officer (TSEO) and Town Secondary Education Statistics and Logistics Officer (TSESLO). In October 2013 the Tarime Town Director appointed acting Town Secondary Academic Education Officer (Ag.TSAEO) from among the secondary teachers. The department consists of two units namely; Academic unit and Statistics and Logistics unit.

The core functions of secondary department are:-

- To ensure that the curriculum is properly implemented.
- To coordinate, collect and analyze data on secondary education in the council.
- To supervise and monitor the rehabilitation, expansion and construction of secondary schools.
- To estimate the hierarchical needs of teachers.
- To import and distribute school supplies according to the needs of the schools.
- To monitor income and expenditures of secondary schools
- To monitor the provision of various educational multi-service delivery in schools.
- To coordinate teachers, students and school workers affairs.
- To coordinate and supervise national examinations at council level and school level.
- To monitor and control accountability of teachers and other school workers.
- Supervise sports and games at council level.
- To locate teachers in working stations at council level and to perform other tasks as directed by the Executive Director

The council has 11 secondary schools of which 3 are public owned and 8 are private owned. Among government secondary schools only one is a boarding school. Meanwhile the council has 6,188 secondary school students, where by 5,435 are Students from public secondary schools equivalent to 87.8% and 753 (12.1%) are Students from private owned secondary schools. Currently Tarime Secondary School is the only boarding school with a total of 878 students.

**Table 5 Number of students in public owned secondary schools in Tarime Town Council by November 2013**

The Council has a total of 168 secondary teachers, where 52 are female and 116 are male. The science teachers are only 41. This number is not adequate to meet the requirement of science teachers in the Council. Teacher's categorization is as shown in Table 7 and 8 below

For the case of infrastructure, the department has 6 administration blocks, 36 teachers houses, 91 classrooms, 2 libraries, 8 laboratories ,133 pit latrine for students, 20 pit latrine for teachers, 4 stores,6019 student's tables, 6014 chairs, 94 teacher's tables, 182 teacher's chairs, 34 cupboards, 5 safe, 704 beds and 22 shelves. However, the department is facing deficit of assembly halls since there is no any

secondary school with assembly hall, 2 administration blocks, 124 teachers houses, 66 classrooms, 7 libraries, 20 laboratories, 96 pit latrines for students, 1 pit latrine for teachers, 10 stores, 62 teacher's table, 44 teacher's chairs, 40 cupboards, 5 safe, 239 beds and 5 shelves. Table 9 therefore indicates the requirement, available and deficits of infrastructures in Secondary schools.

The department is also constrained by several challenges which affect its performance. Some of these challenges includes: Shortage of books in schools which affects teaching and learning process, Shortage of teaching and learning materials, drug abuse by students, early pregnancies and HIV/AIDS infection, Inadequate motivation for teachers, low motivation on sports and games, inadequate in-service training, lack of means of transport, shortage of cars, tri motorcycle, Computer (desk top), Computer (laptop), photocopier, Printer, Scanner, cupboard and Coaches.

### **2.2.7 Community Development and Social Welfare**

Community development department is designated with the objective of facilitating the local community to identify problems, develop ideas, implement and monitor the development projects that take place in their local areas by using the available resources so as to ensure sustainable development. Community development is the liaison between other departments hence it coordinates a number of departments in its functions. It acts as an instrument for achieving the Council goals namely, good quality livelihood and cooperative economy capable of producing sustainable growth, peace and unity.

For the better implementation of the department the Community Development and Social welfare department is divided into four sections which are: Research, planning and statistic; Women and gender

development; Building Constructions and appropriate technology and Social welfare and Youth Development.

The Community Development Department has the core roles of facilitating community (individual or in groups ) to realize the ability in identifying needs and challenges which can lead to their own development by using resources locally available in solving the existing challenges. The core functions of the department therefore are to:

- Enable ward leader to prepare community participatory planning on opportunity and obstacles for Development (O AND OD).
- Create Community sensitization on tradition and customs which bring back development. To Coordinate and supervise soft loans provide by the town council to youth and women development funds.
- Cooperate with cooperative officers encourage people establish to join into saving and credit cooperative societies (SACCOS).
- Solicit, educate and disseminate simple and appropriate technologies for use by community

The community development and social welfare has a total of 8 staff including 3 community development officers, 3 community development assistants, and 2 community development technicians. However, the department is facing a serious crisis of staff as so far there is no Town community development officer, no social welfare officer, no youth officer, no secretary and no office supervisor.

The department is operating under a very difficult environment since it lacks many working facilities and equipments. The department has only 1 table, 2 chairs and 1 office. There is no, Laptop and Desktop computers, Printer, Shelf, Cup boards, Photocopy machine and Binding machine. Generally the operationalisation of the day to day activities is negatively affected due to shortage of both staff and working facilities.

### **2.2.8 Legal**

The Legal Unit at Tarime Town Council as other Legal Units in other Council's in Tanzania, is established by law and is bound and duty obliged to perform some core functions (main duties of making interpretation and ensuring accurate implementation of the prevailing Local Government Laws, Regulations, By-laws, Standing Orders, and other Laws relevant to the council activities.

The core functions of legal unit are:-

- Advise the Council accordingly on all legal matter.
- Attending court sessions on all litigations concerning the Council.
- Preparing the Council By-laws in consultation with Heads of Departments and Units of the Council and making sure that all By-Laws are made and approved by the Full Council according to the procedures advocated in the Principal Law (Act No. 8 of 1982).
- Updating existing By-Laws of the Council after researching whether they need to be amended or revoked according to the prevailing laws of that time.
- Ensuring conformity to laid down procedures when making village/mitaa By-Laws and legalizing them after making sure that all the procedures have been followed.
- Advising Heads of Departments with regards to legal matters concerning the functions.
- Preparing a list of Court Assessors of the Primary Courts of the District (Magistrate Court Act, 1984).

- Providing legal training to the Wards Executive Officers, Villages Executive Officers and the members of the Ward Tribunal.
- Counter signing Council Contracts and Agreements.
- Regulating Wards Tribunal activities as enshrined in the Wards Tribunal Act, 1985 and
- Regulating and giving Legal training to the Village Land Councils and Wards Land Councils

For the case of staffing, the legal unit has only one legal officer (Council Solicitor) who is a holder of Master of law (LL.M). The Unit does not have any other personnel including the office attendant. This makes the management of the office (Unit) very difficult. The way forward for the purpose of resolving this challenge is for the government to employ other personnel.

For the office, currently, the legal Unit does not have its own separate office. Instead, the legal officer of the Council shares the same office (room) with the Internal Auditor of the Council. The room (office) itself is too small to accommodate the said two offices (Units). This challenge can be properly addressed when the Council will have a new administration building within which the Legal Unit will have an office.

For statutes, the Unit has only twenty one (21) volumes of statutes (JUTA), Revised Edition 2002, which include both Principal and Subsidiary legislations. Apart from these statutes, the Unit has no any other legislation; particularly those legislated from 2003 to date. Even among the twenty one (21) volumes of statutes (JUTA), volume seven (VII) which contains the Local Government laws (Act No. 7 and Act No. 8 of 1982), which are of the paramount importance to the Legal Unit as well as the Council as a whole in the legal matters, is missing. This stands as a paradox toward effective performance of the legal activities of both the legal office and the entirety of the Council. However, all these statutes (JUTA) are kept away in the Directors' office on ground that the office of the Legal Unit is too small and has no cabinet to keep these important documents. In addition the Unit lacks Law reports, such as f Tanzania Law Report, East Africa Report as well as High Court Digest whose availability would be of paramount important for references of the day to day decisions. This is a challenge to the Legal Unit and the Council in general.

The Unit has few bylaws which have a long use from the time of the Tarime Township Authority, which today do not meet and address the needs of the Council in its administration. Most of these have a number of lacunas and weaknesses. This is an obstacle since many law breaches are not addressed or covered by the said bylaws. However, to date the Legal Unit has prepared fourteen (14) drafts of bylaws which are in the departmental level (to the experts) for opinions. The Unit is busy preparing more other drafts of bylaws to address the weakness.

On the number of cases, to date the Unit has twelve cases instituted in different Courts of laws. All these cases except one which is a labour case are of land cases in nature. Nine of them are in the District Land and Housing Tribunal at Tarime. One case is in the Commission for Mediation and Arbitration (CMA) at Musoma, another case is in the High Court of Tanzania at Mwanza, and one case at the Court of Appeal of Tanzania. In all these twelve cases, eleven cases originated from Tarime District Council, which then were inherited by Tarime Town Council on ground that they follow within its jurisdiction.

### **2.2.9 Bee keeping**

Formally beekeeping was a section under the Department of Land, Natural Resources and Environment. Following the directives from Prime Minister's Office Regional Administration and Local Government, in

2012 the section was elevated to a full-fledged department. The core functions of Beekeeping Department are:

- Supervision of Bee reserves initiation, Promoting Beekeeping policy and act, Gather Beekeeping information and
- Advice beekeepers on modern beekeeping method.

Currently, the department has no beekeeping officer and assistant officer but it is under the supervision of Environmental Management Officer, Employment of the relevant experts is of paramount for the betterment of the section.

In the Council there is conducive environment for bee keeping, there are mountain reserves which are Tarime mountain reserve, Itununu mountain reserve and Nkongore mountain reserve. The Town Council also has forest reserves which are Bomani and Mogabiri Forest reserves. Moreover, the community members have many private forest reserves at different villages found within the council which provide good environment for beekeeping. The weather conditions are also attractive for beekeeping, the Council is benefiting two rain seasons per annual the situation which provide good habitation for bees due to evergreen forest throughout the year.

Although the Council has good environment for beekeeping but most of communities have very low awareness on beekeeping issues, hence the community have to be sensitized on the importance of bee keeping in the conserved areas and given training on modern beekeeping methods to maximize production of honey and wax.

### **2.2.10 Sanitation and Environment**

Sanitation and Environment is the department which was established in 2012 after disaggregating from two departments which were the Health Department and land, Natural Resources and Environment Department. Sanitation and environmental department consists of two sections of Sanitation and Environment.

#### **(a) Environmental Section**

The environmental section has one staff with a Bachelor of Environmental Science and Management, therefore the section is missing three (3) Environmental Management Officers. Core functions of the section are to:

- Ensure the enforcement of EMA and its regulations.
- Advice the Council environmental management committee on all matter relating to environment.
- Promote environmental awareness on the protection of the environment and conservation of natural resources.
- Gather and manage information on the environment and utilization of natural resources in Tarime Town Council.
- Prepare periodic report on state of local environment.
- Monitor the preparation, review, and approval of environmental impact assessment for local investments.
- Review By-laws on environmental management in spectral specific activities related to the environment.
- Report to the Director of the environment and Director General on the implementation of the EMA.

The major challenges affecting this unit are:

- Poor public awareness on environmental conservation and Environmental Management Act.
- Poor public awareness on uses alternative sources of energy such as biogas and poverty are among factors contributing to environmental degradation and pollution.
- Poor integrations of environmental conservation in different departments lead to environmental degradation e.g. urban planning section may plan a part of river basin and mountains/hills as settlement area.
- Lack of Council's environmental profile and environmental policy.
- The council has no site selected for gravel excavation and stone blasting for building purposes hence degradation of the environment.

### **(b) Sanitation Section**

Sanitation section is dealing with sanitary issues of the town council. The section has a total of six health officers; therefore the section is lacking four (4) health officers and six (6) assistant officers.

The core function of the section has been distributed in its sub units:

**Environmental Health**, this is the sub unit concerning with sanitation. It is working for solid and liquid waste management .Basically it deals with wastes (solid and liquid wastes) from the production areas e.g. residences, industrial and factories to the final disposal of wastes. Wastes management some time is a term used for waste treatment. The treatment comprises refuse collection, refuse transportation, refuse analysis, and refuse dumping or incineration. However this is depends on the nature of solid waste produced. In liquid waste it depends on how it is collected. The main issue here is to ensure that procedures and methods used for waste management do not accelerate transmission of various diseases.

**Public Health**, This is also another sub unit which is working nearby community. The main activity is to deal with behavioral change of community members on health related attitude. In this sub unit research related to environmental health problems, health system management, health laws application, community diagnosis, planning, monitoring and evaluation of health programmed are conducted.

**Community Health** is a sub unit working for community diagnosis and giving measures for prevention before occurrence of diseases or problem. Information can be given according to sources or nature of the problem. It is categorized into health information, health instruction or health education .In treatable diseases vaccination applied to rescue the situation. Also disease surveillance is the duty in this section. It makes follow-up and traces the channel of disease occurrence, then report on incidences to the higher authority

**Food and Food hygiene** This sub unit deals with food from the market, to the consuming table. All raw and processed food are observed and ensured that food is in good condition for human consumption. This is been done through inspection of food and food premises.

**Inspection of premises;** Premises is an open space, container structure or building where any activity can be conducted. These premises must be inspected according to the law of Tanzania because premises can be sources of health problems if care is not taken. The premises environment includes premises layout,

premises waste collection and disposal, water and air supplies .Inspection should be conducted periodically and thoroughly to ensure that the premises environment is becoming friendly to human being and is not a sources of health problems. Also is the duty of this unit to advice and give recommendations to architectural drawings/plan related sanitation and air supplies in different structures according to the purpose of the premises.

Both two sections of environmental and Sanitation shares one office, with three chairs, one table, and the department have no computer, printer, digital camera, cupboard and transport facilities like motor cycle, therefore department is missing crucial working tools in order to work effectively and efficiently.

The sanitation unit is constrained with several issues including poor waste management by the community, Lack of working tools such as Refuse bay as a collection point, handcart, wheelbarrow, vehicle for waste collection, liquid waste dumping site, poor accessibility of Magena dumping site (no road network) and lack of buffer zone of 300m around dumping site, public ignorance on sanitation, low public awareness on public health act, poor urban planning due to poor multi-sectrol collaboration , and poor public awareness on environmental sanitation.

### **2.2.11 Water**

Water Department was established on 01<sup>st</sup> July 2013 when the Tarime Town Council was announced as newly established Town Council. Water Department is very important because its function is to provide clean, palatable and safe water to the community of Tarime Town Council in order to avoid eruption of water borne diseases and to improve the economic growth of the council since the community will use more time on economic activities instead of looking for water especially women for long period of time. The department has only one staff who is the head of Department so all three sections have no staff. The in charge of the department is the one who is supervising and monitoring all daily activities concerning with water supply in the Council.

The number of people served by the present water supply infrastructure is insufficient to cover the present demand so it is required more water points through constructing new water schemes, rehabilitating and maintenance of the existing water infrastructure so as to increase population served now from 40% to at least 80% by 2017.The water supply in Tarime Town Council is very low compared to water demand of the community due to low establishment of new water projects and poor water infrastructure which needs rehabilitation and maintenance . Water Department is divided into three sections which include: Planning and Design, Construction, Operation and Maintenance.

#### **(a) Planning and Design**

Planning and Design section is responsible for design of pipe network, water sources infrastructure and water collection, hydro geological survey for borehole drilling, Rain water harvesting structures and Dams. The section is also responsible for equipment design which include electrical system and equipment operation; statistics bank which includes collection of new and existing water projects report and water quality as well as staff training coordination

### **(b) Construction**

The construction section is responsible for Construction of pipe network infrastructure and environmental sanitation. Construction of boreholes, Rain water harvesting structures and Dams, eEquipment installation and electrical system as well as community sensitization.

### **(c) Operation and Maintenance**

Operation and Maintenance section is responsible with equipment operation and maintenance; operation and maintenance of pipe network, infrastructure and boreholes/shallow wells and water production and quality control. The department is facing a lot of setbacks which affect the operationalisation of the activities. These challenges includes: insufficient number of staff, lack of transportation facilities, lack of working instruments and equipment, lack of office, lack of administrative and operation office consumables.

## **2.2.12 Finance and Trade**

Transactions and exchange of commodities is among of the key sectoral activities playing great role for sustainable development of Tarime Town Council. This transactions and exchange in the Council is under the control of Finance and Trade Department. Finance and Trade Department was established after inauguration of Tarime Town Council on 1<sup>st</sup> July, 2013. This department comprises of four (4) main sections which are: Revenue Section, Expenditure/salaries section, Final accounts section, Trade and Markets section. The department is responsible for collection of council revenues for both own source and Government Grant, payments of all Town Council to the different payees, safe guards of all Council property including fixed assets. Also it is responsible for personal emoluments and developments grant, also receiving grants from other donors for development activities. This department processes all payments for council's financial obligations and prepares all required clean financial statements. It is the one which makes sure that the revenue and payments goes as per approved budget that means the finance and trade sector take control of the council budget and leading in preparation of Budget (Council budget).

Currently Finance and Trade Department has 4 staffs one of them is the Head of Department and other 3 staffs who are waiting of re-categorisation of their duties. However the available number is not adequate as the Council need to have at least 14 staff (Finance 11 and Trade 3 ) for effective and efficient performance of the department's duties.

Generally the Finance and Trade department has the core functions of:

- Preparation of annual budget of income and expenditure in collaboration with planning Department and other heads of departments.
- Supervision of revenue collection from different sources of revenues namely own sources, government block grants and other sources.
- Preparation and authorization of payments of the Council according to laws, regulation and procedures as provided in the Local Authorities Financial Memorandum 2010.
- Maintenance of sound accounting system and safekeeping of all accounting supporting records.
- Ensuring of an effective system of internal control is operated including the writing and subsequent revision of detailed financial procedures.
- Preparation of regular reports to council on the progress of actual expenditure and income compared to budget, and making recommendations for balancing levels of income and expenditures.
- Preparation of Council's reports and financial statements and presenting them to different stakeholders.

### **(a) Revenue Section**

All issues related with revenues of the Council are versed to the revenue section. The section is responsible for:

- Monitoring and supervision of revenue collection from different revenue sources of the Council.
- Preparation of monthly, quarterly and annually revenue collection reports and submitting them to different stakeholders.
- Conducting revenue sources potentiality research and set collection measures so as to maximize revenue collection from different sources.
- Organisation of meetings of businessmen and collection agents on rationale of collecting revenue of the Council.

### **(b) Expenditure Section**

The section is the over seer of all expenditure of the Council. The implementation of any development projects in the Council, depends much on the efficient and effective allocation of council's financial resources. This section therefore is responsible for:

- Preparation of payments according to the budgets of different departments, Local Authorities Accounting Manual (LAAM), Local Authorities Financial Memorandum (LAFM), and other standards.
- Preparation of Council's employee's monthly salaries and submission of employee's data sheets, Salary arrears form timely to PMO-RALG, RAS-Mara and Treasury.
- Supervision of Lower Level Grants (LLG) to facilitate financial record keeping.
- Preparation of monthly, quarterly and annually expenditure reports and submitting them to different stakeholders.

### **(c) Final Accounts Section**

The financial account section is responsible for:

- Preparation and submission of Council's yearly Final Financial Statements to different stakeholders.
- Preparation and updating fixed assets register of the Council yearly.
- Preparation of monthly bank reconciliation statements and submitting them to different stakeholders.

#### **(d)Trade and Markets section**

Trade and market section is one of the sections within Finance and Trade Department. The section provides services related to business for the community within the Council. It is estimated that Trade and Market section provide services to 5,000 business people who are registered and non-registered in the Council.

The key roles of the Trade and Marketing section to the community are:

- To receive applications of business licenses, assessing if they comply with regulations before issuing the license to the applicant's.
- To conduct inspections of business license in the Council.
- To collect business records and maintain data base.
- To prepare reports and other documents related to business.
- To implement business policy and regulation under the agreement of World Trade Organization (WTO)
- To collect statistical data from various sources like TRA which are useful in trade section.
- To prepare statistical data of goods and services which are produced within the area of jurisdiction.
- To collect and compile Business policy and laws that help to provide good governance.
- To collect statistical data's related to business progress for the purpose of monitoring and evaluation within the boundaries of Tarime Town Council.
- To seek statistical data from business people who export and import goods and service from external markets (e.g. E.A.C) for the purpose of decision making.
- To conduct awareness and seminars to business people on entrepreneurial skills, food processing and crops value addition.
- To create new sources of revenue within the area of jurisdiction.

Besides, the key roles above this section has only one trade officer and two staffs who are waiting for re-categorization. Although there is lack of staffs, the section provides reasonable services to the business community. Thus there is need to increase number of staffs and those who are present, need to be strengthened through training courses, seminars and workshop. Not only that, but also the office is too small compared to work load and services provided to the community. The section also faces a big problem of transport facilities.

Trade and Markets section also deals with market operations within the Council. The challenges under marketing are lack of staff, offices, facilities and market infrastructures. To overcome these challenges for the purpose of increasing work performance creativity and good governance for sustainable development, the trade section need to be equipped with fully working tools and enhancing good working environment.

#### **2.2.13 Internal Audit**

Internal Audit is among of the department of Tarime Town Council whose role is to appraise the soundness of internal control systems in areas of accounting, financial and operations. Much of the emphasis and focus is on Value for Money Audit (Performance Audit), System Audit and Compliance Audit. The department is also responsible for reviewing revenue sources to see other potential revenue bases which stand untapped by the Council. Moreover, in this plan the department has incorporated its duty of making follow ups, conducting its advisory role (consulting), conducting special investigations and responding to the Accounting Officer's directives from time to time.

The key functions and responsibilities of the Internal Audit unit in Tarime Town Council are as follows:-

- Advise the management on the sound of the plan policies, rules and regulation.
- Advise on adequacy and utilization of accounting and financial procedures for safeguarding the Town Council assets and financial resources.
- Investigate and report on all performance financial and accounting operation of Town Council.
- Audit the Town Council revenue and expenditure statement checking bank reconciliations, preparation of ledgers and trial balance
- Audit and review council's assets, inventories, reports and make advice on any requirement for improvement.
- Ascertain the level of compliance with established procedures or regulation on the performance, accounting and financial operations of the council.
- Review and report on established controls over the receipts, custody and utilization of financial assets and resources of the Town Council.
- Review and report on adequacy of Management actions in response to Internal Audit and External Auditors report.
- Liaise closely with External Auditors during and after external auditor have been performed.
- Review procedures laid down on the control of procurement, storekeeping, stock controls, and advice accordingly for improvement.
- Conducting site visits to project like SEDP, PEDP, HBF, CHF, RIF, LDG and other projects with the aim of executing performance audit.

The internal audit is the department which is facing serious shortage of staff and working facilities. The department has only 1 staff that is the head of department, there is no internal audit officers. In terms of working facilities the department has no tables, no chairs, no computer and printer, no motor vehicle, no file cabinet, no shelves, no camera, and no scanner. This situation requires immediate intervention for smooth operation of internal audit activities.

#### **2.2.14 Works and Fire Rescue**

The major role of the department is supervising/ monitoring, directing and implementing the provision of good quality works and fire fighting services. So far, Tarime Town Council has a total of 264.4 km of road network of which 1.2 km is paved roads, 39.9 are gravel roads and 224.2 km is Earth roads. Generally the road condition is relatively not in good condition because of frequent soil erosion as well as heavy rain fall and therefore regular maintenance is necessary. The department has 3 staffs and 2 of them are civil technicians and 1 Civil Engineer. In terms of infrastructures, the department has one Office,, one supervision car, one Fire truck which is not working properly and one table with three office chairs.

The department is facing inadequate number of staff, since department is dealing with four units (Roads, Buildings, Electrical and Mechanical and Fire rescue services) it is difficult for three staff to perform the intended responsibilities effectively and efficiently. Other challenges to the department include lack of fire fighting hydrants lack of water booster machine for fire truck, and lack of working tools

## **2. 2. 15 Information Communication Technologies and Relation (ICTR)**

This sub section performs the following core functions:

- Prepare unit annual budget in collaboration with planning department.
- Prepare quarterly report to the council.
- Prepare schedule for the computer system maintenance.
- Handling of council information in a variety media, newspaper, video, CD's and computer databases.
- Maintenance and upkeep of the council computer systems
- Troubleshooting as and when required
- Building a sound networking system for the council for which they may require the help of engineers
- Designing filing systems specific to the council which increase the level of security for all files
- Training the staff in using the new systems
- Planning, developing and implementing Public Relation strategies.
- Researching, writing and distributing press release to the targeted media;
- Collating and analyzing media coverage;
- Monitoring the use of council notice board.
- Use all forms of media to build, maintain and manage the reputation of the council client.
- Monitor publicity and conduct research to find out the concerns and expectations of the council stakeholders.
- To report and explain the findings to management team.

Information Communication Technology and Relation unit (ICTR) comprises of three (3) sub units which are: Information, Communication technology and Relation sub units. The Information Communication technology and relation unit perform its core functions through the above motioned sub units

### **(a) Information sub unit**

This sub sections performs the following core functions:

- Attending requests from persons seeking information and where the requests cannot be made in writing, to render reasonable assistance to the person making the request orally.
- If the information requested for is held by or is a subject matter closely connected with the functions of another authority, the IO shall transfer, within five days that request to the other public authority and inform the applicant immediately.
- Where a request has been rejected communicate to the applicant, the reasons for such rejection, the period within which the appeal against such rejection may be preferred, and the particulars of the Appellate Authority.
- Provide information in the form of which it is sought unless it would disproportionately divert the resources of the public authority or would be detrimental to the safety or preservation of the record in question.

### **(b) Communication technology sub unit**

This sub sections performs the following core functions:

- Maintenance and upkeep of the council computer systems ,Troubleshooting as and when required
- Building a sound networking system for the council for which they may require the help of engineers
- Designing filing systems specific to the council which increase the level of security for all files

- Training the staff in using the new systems
- Perform repair work in the system on a regular basis as problems arise frequently and any data loss can prove to be detrimental
- Working closely with the management and other engineers in the council regarding the design of the filing system
- Incorporate suggestions made by other employees for the betterment of the system
- To keep their knowledge about computer systems absolutely fresh as there are new kinds of software and hardware being introduced on a daily basis
- Update the council software regularly and prepare reports and suggestion for the management to act upon

**(c) Relation sub unit**

- Planning, developing and implementing Public Relation strategies.
- Researching, writing and distributing press release to the targeted media;
- Collating and analyzing media coverage;
- Preparing and supervising the production of publicity brochures, handouts, direct mail leaflets, promotional videos, photographs, films and multimedia programs;
- Organizing events including press conferences, exhibitions, open day and press tours;
- Maintain and update information on council website;
- Sourcing and managing sponsorship opportunities
- Fostering community relations through events such as open days and through involvement in community initiatives;
- Manage the Public Relations aspect as a potential crisis situation.

Currently the Information Communication Technology and Relation unit (ICTR) has only one (1) staff who is acting as Head of Unit. For the efficient and effective performance of the unit's duties it requires minimum of eight (8) staff. The table below illustrates the available human and physical resource in Information Communication Technology and Relation unit (ICTR).

**Table 10: Human and Physical Resources in the ICTR unit**

No	Detail	Available Resource	Required Resource	Deficiency
1	Head of Unit	1	1	0
2	System Analyst	0	1	1
3	Network Administrator	0	1	1
4	Database Administrator	0	1	1

Source: Tarime Town Council, 2013

The discrepancies illustrated in Table 10 are issues of major concern that needs to be addressed to enhance the good working environment, ensure security and control council information system that will help the unit to align its goal, objectives and support other departments to achieve their goals for the sustainable development of the council community.

### 2.2.16 Health

Health department is important at any council as it plays the vital role to help the society stay healthy and enable them to participate fully in development activities. The core function of health department includes: Provision of Hospital services (curing people), provision of reproductive health services, making sure that the community is free from communicable diseases, non-communicable diseases and deficiencies, prevention of accident and safety. In Tarime Town Council the health department is divided into three units, namely: - Administration, Curative and Preventive

Administration: This is the unit which deals with daily activities to run the healthy services. Its core function include:- Coordination of all health administrative issues, human resource for health Management, preparation of budgets, supervision of health facilities, transport management and procuring health resource.

Health department runs one Government hospital, 3 Dispensaries Government owned, one health centre owned by Tarime Goodwill Foundation, one Private Dispensaries owned by SDA, MAKONZO, TGF, RONSOTI, MAGENA, KKT, KIBUMAYE and SACHITA. 3 FBO, 4 Private owned.

Administratively the department is facing a significant deficit of resources and facilities as the Council is still at its infant stage. Table 11 shows the required and available human resources in the Health Department.

**Table 11: Human Resource in health department**

Types	Requirement	Available	Deficit
Medicine Doctor	5	1	4
AMO	13	3	10
NO	52	0	52
HS	1	0	1

For curative services, Tarime Town Council has one Hospital which is Tarime District Hospital. This is the only Hospital in the District it receives patients from the whole District as well as from Serengeti, Rorya and Migori Kenya. This is because is the only Hospital owned by the Government most of patients depend on, hence leads to inadequate resources in terms of personnel, infrastructure ,drugs and medical supply. Among of the top ten diseases affecting the community includes: Diarrhea, ARI, Pneumonia, Intestinal worms, Malaria, Anemia Clinical AIDS, Emergency surgical condition, Ear condition and Skin disease. The magnitude of such diseases is as shown in Table 12 below.

**Table12: Top 10 disease affecting community members**

Diagnosis	<5 years				5+years			
	M	F	Total	% of total OPD Cases	M	F	Total	% of total OPD Cases
Diarrhea disease	15,200	14,960	30,160	33.4	2,306	4,302	6,608	15.8

Source: Tarime Town Council, 2013

For the preventive services, this is a section which makes Health Department to work according to the Tanzanian Government policies, works closely to ensure that diseases are prevented through different measures. It is the duty of the department through preventive section to make sure that community is free from communicable diseases, non-communicable diseases and deficiencies, accident prevention and safety. Currently preventive staffs are over worked due to shortage of qualified staff; sometime the council utilizes unqualified staff to perform professional activities, which cause under performance. More staff assigned to conduct jobs in more than one unit or otherwise to use some curative staff to perform jobs in preventive section which is unethical.

Generally, the operationalisation of health activities is constrained by several bottlenecks which include: shortage of staff. Shortage of working facilities such as transport facilities for vaccination and shortage of immunization point and shortage of motorcycles for follow up, supervision and monitoring, evaluation of sanitation activities, diseases surveillance and data management activities.

### 2.2.17 Town Planning and Lands

The Department of Town Planning and Lands was established when Tarime Urban area was gazetted to be Township Authority in 2007 by the Government of Republic of Tanzania. Since 2007 Town planning and lands Department worked simultaneously with the department of Lands, Environment and Natural Resources of Tarime District Council until 1<sup>st</sup> of July, 2013 when Tarime Town Council was established..

The department aims to facilitate capacity building to its staffs for provision of good land services, managerial and deliverances to the community within Tarime Town council. It is the department which deals with land planning for various uses including settlements and investments, survey, valuation and delivering to those who are in need of land for development. Also it deals with management of forest reserves, community based forests and the environment. The Town Planning and Lands Department ensures availability of staffs, Equipping office documents and maps. Also it delivers reports to Town Council, Regional, Zonal and National levels to the Ministry. The department has four sections which includes: Town planning, Land management, Surveys and mapping, and Natural Resources

The core functions of Town Planning and Lands department are:

- Ensuring availability of skilled staffs.
- Delivering Town planning and Lands Reports to Tarime Town Council, Regional, Zonal and National level to the Ministry.

- Supervising sectors on implementing targets
- Protect and equip department documents
- Ensuring availability of staff facilities
- Preparing town planning layout of various land uses
- Controlling land development among land developers
- Collecting Town Planning information
- Analyses and checking the request for change of land uses
- Checking and approving land development plans
- Making land survey for provision of Plots
- Collecting and protecting land survey information
- Equipping and protecting survey maps and documents
- Land acquisition
- Collecting and protecting land information
- Preparing and protecting land tenure statistics
- Analyzing and researching the value of land, property and crops.
- Valuating land and properties for acquisition and provision
- Supervision of natural and artificial forest reserves
- Supervision of tree planting and uses
- Advancing the community on tree planting/harvesting trees
- Surveying forest reserves and demarcation
- Collecting and manage forest information
- Supervise forest reserves demarcation

The Department has two staffs, Town planning officer and Land Technician surveyor. The following table 13 shows the description of present, required and deficit of staffs in the Department.

**Table 13: Number of staff in Town Planning and Lands department**

S/No.	Category of Staffs	Available	Required	Deficit
1	Town Planners	1	3	2
2	Town Inspectors	2	3	1
3	Land Surveyors	-	2	2
4	Technician surveyors	1	3	2
5	Valuer	-	2	2
6	Land officer	-	2	2
7	Technician Land officer	-	2	2
8	Cartographer	-	2	2
9	Authorized Land officer	-	1	1
10	Forest officer	-	1	1
11	Forest Attendants	-	4	4
12	Forest Nursery attendants	-	4	4
13	Technician Forest officer	-	1	1
<b>TOTAL</b>		<b>4</b>	<b>30</b>	<b>26</b>

*Source: Tarime Town Council, 2013*

The office has two tables and three chairs which is limited to the number of staffs expected in the department and customers. There is only one computer. The department has 173 survey maps and 51 Town planning maps approved in the ministry and there is no Cabinet where to keep these maps hence there is a need of at least two maps cabinet for keeping survey and Town planning maps. The department also has 3,506 plot files and 183 land development plan files which need to be protected in shelves but there are only three (3) shelves which afford to accommodate 2,000 files only. There are 4 Kalamazoo Binders where land owners are registered and they are fully filled hence there is need of new Kalamazoo Binders for new registrations. The Department has only one room for five sections which is not enough hence there is need of at least ten rooms where head of sections and their subordinates can use and for proper keeping of essential documents.

The Department also lacks a car for facilitating implementation of department activities and controlling land uses in the urban area and its set light towns of Mogabiri, Nkongore and Kenyamanyori settlement centers and Tarime Town council forest reserves. Therefore adequate number of staffs, equipment and tools should be availed to improve performance of this Department.

### **2.2.18 General Election**

After every five years there is election supervised by National Electoral Commission (NEC) for councillors, Member of Parliament and President, The last election was 2010 and it is expected another election by 2015, before election NEC coordinate people to update their information to the Permanent National Voter Register, for those who have not registered for different reasons. For those who have registered to make their information clear and to remove all information of death voters and to add the voters who have migrated from different area to Tarime Town Council then the information are displayed to all parts of the Council to give room everyone to prepare for election. Election department helps to solve problems arises between political parties, leaders and community on the issue of leadership and election on the time of filling gaps. Also there is election supervised by PMORALG to elect hamlet and village leaders. In fulfilling election related issues the department has core functions which are:

- To supervise general or by-elections,
- To ensure availability of election tools and materials,
- To work in cooperation with electoral committee for planning general election,
- To keep and update voters registration book,
- To Keep election records,
- To link between constituency and electoral committee,
- To supervise implementation of committee/election activities and
- To Control financial expenditure in accordance with election timetable

Currently, the department has only one staff. There is insufficient number of staff, lack of transportation facilities, working Instrument and Equipment, furniture and election unit officers

## **2.3 Analysis of External environment**

The general external environment of the Council goes beyond the nation's boundary to include the international environment. It is therefore important to review the external environment in order to understand the contextual setting envisaged in formulating strategic objectives for town council development for the next three years. This will enable the Town Council to be responsive to the relevant and changing environment as well as the emanating complex and dynamic problems and challenges.

### **2.3.1 Big Result Now (BRN) initiatives**

As part of its effort for transition of the country from a low to a middle-income economy, starting with the 2013/2014 Financial Year, Tanzania, with support from Development Partners, adopted a Big Results Now (BRN) initiative. Big Results Now (BRN) initiative aims at adopting new methods of working under specified timeframe for delivery of the step change required. This comprehensive system of development implementation, described as a "fast-track people-centered growth 'marathon'" focuses on six priority areas articulated in the Tanzania National Development Vision 2025: energy and natural gas, agriculture, water, education, transport and mobilization of resources.

On 22 February , 2013 , when the President Dr. Jakaya Kikwete formally launched a much-vaunted programme that's ostensibly intended to vault Tanzania over from its current Least Developed Developing Country status (LDDC) to a middle-income nation-state by the year 2025. The initiative will eliminate the "culture of business as usual" and needless confidentiality amongst officials and officers serving the public that has hobbled efforts to move Tanzania forward. If the country is to achieve a middle-income economy by 2025, it is essential that development planning no longer be a secret process for executives and that the public become actively engaged to learn about development plans and provide input that will be taken into account. Transparency and efficiency are guiding concepts and the reduction of corruption will be of paramount importance. "Development plans are no longer secret matters for the executives, but the public will be involved to learn about the development plans and share their views accordingly. Tarime Town Council like other councils is obliged to comply with (BRN) initiatives for making sure that all formulated strategic objectives and targets are timely achieved for sustainable development of the council.

### **2.3.2 Tanzania Five Years Development Plan (2011/12 – 2015/16)**

This is an important milestone for Tanzania that a formal Five Year Development Plan is being unveiled. Spanning from 2011/12 to 2015/16, the Plan is the formal implementation tool of the country's development agenda, articulated in the Tanzania Development Vision 2025. A prime aspect of the Plan is the recognition of fast-tracking realization of Development Vision 2025 goals. The Plan is underpinned by specific strategies to fast-track realization of the Vision 2025 goals and objectives. These include sustainable and effective utilization of existing human and natural capital; creation of an enabling environment for the private sector to invest and participate in a wide range of business opportunities, in the next five years. The Plan emphasizes that the success of the private sector in taping the advantages from the enabling environment will depend on an efficient, well functioning and effective public sector.

In this respect, the Plan indicates key functions and strategies for the public sector to implement in order to render the growth momentum possible. This is in recognition of the need to bring together stakeholders and mobilize the required resources and environment for sustainable use of the national resources for development. The Plan also provides insights into responses of the government to the increasing challenges of development; and outlines what it will take to succeed, and the expected outcomes in

delivering sustainable development. It is the government's expectation that this Plan will assist us to scale up the country's efforts of promoting socioeconomic development. The Plan is premised on the principles of accountability, credibility, integrity and effective resource utilization. In principle, the efforts capitalize on the idea that 'business as usual' attitude will not surmount these challenges. To put these principles in practice, the Plan has singled out key priority areas and identified strategic interventions that will accelerate economic growth, create employment, and support industrialization efforts.

The FYDP implementation approach has been organized in such a manner that the Government will take the lead in mobilizing the resources, setting strategic interventions and specifying the activities to be undertaken; while development partners, private sector and other non-state actors will select the earmarked priority activities and thus invest strategically. In recognition of challenges on resource mobilization, the Plan has zeroed in on a few areas of prioritization, of which their implementation will unleash the country's growth potentials. These areas are of agriculture, industry, transport, energy, ICT and human resources.

The major goal of First Five Years Development Plan is to unleash the country's resources potentials in order to fast track the provision of basic conditions for broad-based and pro-poor growth. The main objectives of First Five Years Development Plan are to improve the physical infrastructural networks and human capital in order to hasten investment for transformation of the country's production and trade supply structures (agriculture, manufacturing and services), and foster Tanzania's competitiveness. However, the target average GDP growth rate for FYDP period is 8 percent per annum (equivalent to a 5 percent per capita growth target) building up from 7 percent for 2010 and thereafter consistently maintaining growth rate of at least 10 percent per annum from 2016 until 2025. With respect to FYDP goals the Tarime Town Council has the role to play in realization of these goals in unleashing Tanzania's latent potentials existing in the district.

### **2.3.3 The Tanzania National Development Vision (2025)**

Tanzania envisions that by 2025 it will have attained a remarkable development from a least developed to a middle income country in the areas of high quality livelihood, Peace, stability and unity, good governance, a well as educated and learning society; and a competitive economy capable of producing sustainable growth and shared benefits.

**High Quality Livelihood**, Ideally a nation's development should be people-centred, based on sustainable and shared growth and be free from abject poverty. For Tanzania, this development means that the creation of wealth and its distribution in society must be equitable and free from inequalities and all forms of social and political relations which inhibit empowerment and effective democratic and popular participation of social groups (men and women, boys and girls, the young and old and the able-bodied and disabled persons) in society. In particular, by the year 2025, racial and gender imbalances will have been readdressed such that economic activities will not be identifiable by gender or race. All social relations and processes which manifest and breed inequality, in all aspects of the society (i.e., law, politics, employment, education, culture), will have been reformed.

**Peace, Stability and Unity**, A nation should enjoy peace, political stability, national unity and social cohesion in an environment of democracy and political and social tolerance. Although Tanzania has enjoyed national unity, peace and stability for a long time, these attributes must continue to be cultivated, nurtured and sustained as important pillars for the realization of the Vision.

**Good Governance**, Tanzania cherishes good governance and the rule of law in the process of creating wealth and sharing benefits in society and seeks to ensure that its people are empowered with the capacity to make their leaders and public servants accountable. By 2025, good governance should have permeated the national socio-economic structure thereby ensuring a culture of accountability, rewarding good performance and effectively curbing corruption and other vices in society.

**A Well Educated and Learning Society**, Tanzania envisages to be a nation whose people are ingrained with a developmental mindset and competitive spirit. These attributes are driven by education and knowledge and are critical in enabling the nation to effectively utilize knowledge in mobilizing domestic resources for assuring the provision of people's basic needs and for attaining competitiveness in the regional and global economy. Tanzania would brace itself to attain creativity, innovativeness and a high level of quality education in order to respond to development challenges and effectively compete regionally and internationally, cognisant of the reality that competitive leadership in the 21<sup>st</sup> century will hinge on the level and quality of education and knowledge. To this effect, Tanzania should:

- Attain self reliance driven by the psychological liberation of the mindset and the people's sense of confidence in order to enable the effective determination and ownership of the development agenda with the primary objective of satisfying the basic needs of all the people - men, women and children.
- Be a nation whose people have a positive mindset and a culture which cherishes human development through hard work, professionalism, entrepreneurship, creativity, innovativeness and ingenuity and who have confidence in and high respect for all people irrespective of gender. The people must cultivate a community spirit; one which, however, is appropriately balanced with respect for individual initiative
- Be a nation with high quality of education at all levels; a nation which produces the quantity and quality of educated people sufficiently equipped with the requisite knowledge to solve the society's problems, meet the challenges of development and attain competitiveness at regional and global levels.

This necessitated the government to launch a National Strategy for Growth and Reduction of Poverty II (NSGRP II) to expedite the process of attaining the national development vision. The Tarime Town Council as one of the councils responsible for service delivery in the country could serve as one of the government vehicles in attaining the goal of vision 2015 and thus reduce the poverty level among Tanzanians.

#### **2.3.4 Tanzania Mini- Tiger Plan**

Mini-Tiger Plan 2020 gives Tanzania a golden opportunity to accelerate her economic growth to 8-10% from the current 5-6% by adopting the Asian Economic Development Model. The Model is focusing on employment creation by attracting Foreign Direct Investment (FDI) and promoting exports by developing Special Economic Zone (SEZ). Economic Miracle of Asian Economy is basically creating "Ponds" (SEZ) and attracting "Migrating Birds" (Investment especially FDI) - "Ponds and Birds" theory. Tanzania is still faced with many bottlenecks and problems for attracting FDI due to shortcomings such as underdeveloped infrastructure, weak banking system, weak entrepreneurs/venture spirit and weak manpower skills for developing modern industry. In order to overcome these problems and bottlenecks, "Ponds and Birds" theory offers a solution which has been successfully applied in the Asian countries including ASEAN, China, India and more recently Vietnam. "Ponds and Birds" theory should work for Tanzania as well if Tanzania works diligently and quickly with the utmost efforts and enthusiasm from the President to

Villagers. Tanzania Mini-Tiger Plan 2020 is to follow the success path of Asian Miracle by starting developing “Ponds” (SEZ) in the most promising areas and promising sectors.

Basic Three Stage Strategy: Accelerating to 8-10% annual growth includes: Build Special Economic Zones (EPZ) and aggressively promoting most promising industries (Primary, Light Industry and Tourism) by use of well proven SEZ Concept (Ponds and Birds Theory), Quickly improve the National Balance Sheet by expanding exports from \$1.0 billion to \$2-3 billion within 3-4 years by the using “Ponds and Birds” theory and then, expand badly needed public projects in power/energy/water/transport sector by long-term borrowing from Multilateral and Bilateral development banks. The Tarime Town Council has a vast area of 147 km<sup>2</sup>. With its strategic location along the border with Kenya, the area can be strategically used to attract investment through private public partnership to promote the economic growth of the council and the nation at large.

### **2.3.5 Agricultural Sector Development Strategy and Kilimo Kwanza Initiative**

The ASDS provides a comprehensive strategy and framework for the implementation of the sector policies. The strategy defines the means for achieving the central objectives of the national agriculture and livestock policies. It is designed to create an enabling and favourable environment for improving productivity and profitability of the agriculture sector, which is expected to increase farm incomes in order to reduce rural poverty and ensure household food security. In addition in June 2009, the Tanzania National Business Council under its Chairman President Dr. J.M. Kikwete organized a two days meeting to discuss the policies and strategies for transformation of Tanzania’s agriculture under the theme KILIMO KWANZA. The following were the resolution: To embark on KILIMO KWANZA as Tanzania’s Green Revolution to transform its agriculture into a modern and commercial sector; to integrate KILIMO KWANZA into the Government machinery to ensure its successful implementation; to mobilize the private sector to substantially increase its investment and shoulder its rightful role in the implementation of KILIMO KWANZA and declared that the implementation of KILIMO KWANZA will comprise the following ten actionable pillars:

- i. Political will to push our agricultural transformation.
- ii. Enhanced financing for agriculture.
- iii. Institutional reorganization and management of agriculture.
- iv. Paradigm shift to strategic agricultural production.
- v. Land availability for agriculture.
- vi. Incentives to stimulate investments in agriculture.
- vii. Industrialization for agricultural transformation.
- viii. Science, technology and human resources to support agricultural transformation.
- ix. Infrastructure Development to support agricultural transformation.
- x. Mobilization of Tanzanians to support and participate in the implementation of KILIMO KWANZA

Since Tarime Town Council is one of the Government machineries for implementation of national policies, strategies and priorities, it will ensure that agriculture in the council is transformed in accordance with the ten KILIMO KWANZA actionable pillars.

### **2.3.6 National Strategy for Growth and Reduction of Poverty II (NSGRPII)**

The second National Strategy for Growth and Reduction of Poverty (NSGRP II) or MKUKUTA II) is a continuation of the government and National commitments to accelerate economic growth and fighting

Poverty. It is thus an organizing framework to rally national efforts for next 5 years (2010/11 – 2014/15) in accelerating poverty- reducing growth by pursuing pro-poor intervention and addressing implementation bottlenecks. The strategy emphasizes on ten key issues: Focused and sharper prioritization of interventions - projects and programmes - in key priority growth and poverty reduction sectors strengthening evidence-based planning and resource allocation in the same priority interventions, aligning strategic plans of Ministries, Departments and Agencies (MDAs) and LGAs to this strategy, strengthening government's and national implementation capacity, scaling up the role and participation of the private sector in priority areas of growth and poverty reduction, improving human resources capacity, in terms of skills, knowledge, and efficient deployment, fostering changes in mind-set toward hard work, patriotism, and self-reliance; mainstreaming cross cutting issues in MDAs and LGAs processes, strengthening the monitoring and reporting systems; and better implementation of core reforms, including paying strong attention to further improvement of public financial management systems. All of these are in consonance with the core functions of the Tarime Town Council in offering public services.

### **2.3.7 Small and Medium Enterprise Development Policy 2002**

In Tanzania the SME sector has been recognised as a significant sector in employment creation, income generation, poverty alleviation and as a base for industrial development. The sector is estimated to generate about a third of GDP, employs about 20% of the Tanzanian labour force and has greatest potential for further employment generation. Moreover, the SIDP does address the aspect of small industries but as a matter of fact, the SME sector covers more economic activities than manufacturing alone. As such strategies and programmes identified by SIDP have lopsided effect since they neglected a greater part of SME activities in the areas of commerce, mining and services. This requires an all embracing policy in terms of covering the whole range of economic activities being performed by SME broad spectrum sector perspective. In addition, the SMEs by nature of their scale require specific interventions to nurse them. In the international perspective, economies that have strong SME sectors have being due to having in place, clear guidance, focused visions and appropriate strategies arising from well designed SME policies. Based on the importance of this sector and its potential, the SME Development Policy has been designed to revitalise the sector to enable it to contribute to the objective of the National Development Vision 2025. Furthermore, it aims at creating a mechanism to put in place an effective institutional framework for its implementation, coordination, monitoring and evaluation. Central to all these strategies is the ultimate objective of attaining rural industrialisation in line with the Poverty Reduction Strategy and the Vision 2025. The policy aims at revolutionising the SME sector to make it sustainable agent of stimulation of growth of the economy.

The **vision** of the SME Development Policy is to have a vibrant and dynamic SME sector that ensures effective utilisation of available resources to attain accelerated and sustainable growth. The **mission** of this Policy is to stimulate development and growth of SME activities through improved infrastructure, enhanced service provision and creation of conducive legal and institutional framework so as to achieve competitiveness. The **overall objective** of this policy is to foster job creation and income generation through promoting the creation of new SMEs and improving the performance and competitiveness of the existing ones to increase their participation and contribution to the Tanzanian economy

The policy covers the following key areas: Reviewing and reconsidering public policies and regulations that discriminate against or hinder the start-up, survival, formalisation and growth of SMEs, Enhancing the growth of the sector, Identifying and assigning clear roles of key actors, Developing strategies that will

facilitate provision of financial and non financial services to SMEs, Developing and institutionalising public private partnerships for SME sector development. In achieving policy objectives the government will: Enhance implementation of programmes aimed at simplification and rationalisation of procedures and regulations so as to encourage compliance and minimise transaction cost. Continue to improve the physical infrastructures and provision of utilities in collaboration with Local Authorities, private sector and development partners, Promote entrepreneurship development through facilitating improved access of SMEs to financial and non-financial services, Enhance the capacity of institutions providing business training to SMEs, Facilitate and support programmes aimed at increased access of information pertinent to the development of SMEs, facilitate acquisition and adaptation of technologies as well as enhance networking between R&D Institutions and SMEs in a bid to upgrade technologies so as to raise the productivity and competitiveness of the sector, Be committed to facilitating support programmes aimed at improving SMEs' access to market. Facilitate the establishment of manufacturing enterprises in rural areas so as to add value to agro products and facilitate strengthening of institutions and associations supporting the SME sector. Since industrialisation in Tarime Town Council is dominated by small scale industries which contribute to the development of the council, the Town council has the role of coming up with strategic options of using the available opportunities provided by the government to enhance the capacity of SMEs in the council.

### **2.3.8 Local Government Reform Programme**

The Government of Tanzania is currently implementing the second phase of Local Government Reform Programme (LGRP II) amidst both progressive and gendered policies and strategies aimed at attaining gender equity, democracy and sustainable development. The overall goal of LGRP II is to achieve accelerated and equitable socio-economic development, public service delivery and poverty reduction across the country. In relation to the overall goal, the overall programme purpose of LGRP II is to achieve devolution of Government roles and functions, and to that end transform LGAs to competent strategic leaders and coordinators of socio-economic development, accountable and transparent service delivery and poverty reduction interventions in their areas of jurisdiction.

However, local governance is facing a number of development bottlenecks in reference to the implementation of the D-by-D policy. Some of the bottlenecks include lack of strategic leadership, inadequate involvement of the public, civil society and private sector, lack of capacity and gender awareness/gender mainstreaming and sensitivity among councilors and senior managers, lack of career and staff development plans in most LGAs and there are poor relations between councilors and council staff. Tarime Town Council as implementing institution shall ensure that the goal and purpose of LGRP II is realized through enhanced service delivery.

### **2.3.9 Cooperatives Development Policy**

This policy emphasizes on first transformation of farming from subsistence to commercial enterprises for the majority of producers, secondly assisting farmers to undertake critical problem analysis and assessment to understand the available alternative opportunities, production costs and market trends so that they can allocate their resources more efficiently and put emphasis on processing, value adding, and improvement of quality of products. Therefore, the cooperatives development policy provides some of the key challenges and opportunities for future development in this sector. In particular, the policy narrates the

roles and responsibilities of the Government and other stakeholders in the promotion of autonomous competitive and member based cooperatives under the free market economy.

### **2.3.10 The Millennium Development Goals (MDGs)**

The Millennium Development Goals (MDGs) are eight goals to be achieved by 2015 that respond to the world's main development challenges. The MDGs are drawn from the actions and targets contained in the Millennium Declaration that was adopted by 189 nations-and signed by 147 heads of state and governments during the UN Millennium Summit in September 2000. The MDGs are global – level commitments on sustainable human development. The goals are very relevant to the core mission of the Council largely because they focus on extreme poverty eradication, universal education, environmental sustainability, improvement of maternal health, combat HIV/AIDS, malaria and other diseases, improvement of access to clean and safe water and promotion of gender equality and women empowerment. Therefore Tarime Town Council strategic plan shall serve as one of the national vehicles to realizing the goals as it also deserves the global and national support in that endeavour.

## CHAPTER THREE

### STAKEHOLDERS ANALYSIS, SWOC ANALYSIS AND CORE VALUES

#### 3.0 Stakeholders Analysis

Stakeholders analysis in Tarime Town Council involved the process of analyzing individuals, groups of people, institutions or firms that may have a significant interest in the success or failure of the strategic plan (either as implementers, facilitators, beneficiaries or adversaries). However, a basic premise behind stakeholder analysis in Tarime Town Council was that different groups have different concerns, capacities and interests, and this need to be explicitly understood and recognized in the process of problem identification, objective setting and strategy selection. The key questions asked during stakeholder analysis were therefore 'whose problems or opportunities are we analysing' and 'who will benefit or lose-out, and how, from a proposed strategic plan intervention'? The ultimate aim being to help maximize the social, economic and institutional benefits of the strategic plan to the target groups and ultimate beneficiaries, and minimise its potential negative impacts (including stakeholder conflicts). The Summary results for stakeholders analysis is presented in table 11 below.

**Table: 14 Stakeholders Analysis Matrix**

S/No	Stakeholders	Characteristics	Activities/Interests
1	Community member	Low income earners	Small scale farmers
		Some are violent/aggressive	Small scale business
		Hard working	
2	NGOs	Nonprofit oriented Gender bases	Support social services Gender violence e. g HIV/AIDS
			Material control
3	Extensive service FBOs	Nonprofit oriented	promoting peace
4	Police force	Law enforcement	To maintain peace and security
5	Court	Law enforcement(Law enforcers)	To maintain peace and security To restore justice and right
6	Prison	Law enforcement (Law enforcers)	Community behavior change
7	Tarime Teachers College	Government academic institution	Provide training
8	Nursing School	Government Health institution	Provide training
9	SATCHITA Radio Station	Mass media	Broadcasting Entertainment Education services

S/No	Stakeholders	Characteristics	Activities/Interests
10	Secondary and primary schools	Academic institutions	Education services
11	Immigration Office	Law enforcement(Law enforcers)	Maintain peace
12	PCCB	Law enforcement (Law enforcers)	Anti corruption
13	Banks(CRDB,NMB,NBC)	Financial Institutions Profit oriented	Provide training on trade Provision of soft loans
14	Post Office	Government institution	Enhance communication
15	Tarime Town Council Water Authority	Social service entity	Supply water
16	Tarime Town Council	Service delivery oriented	Provision of various service to community
17	Central Government(TAMISEMI)	Service oriented High power of authority in decision making	Provide directive
18	TANESCO	Government institution	Supply electric power
19	TRA	Government institution	Tax collection
20	TANROAD	Government Agency	Improvement of Infrastructure e.g. road
21	World Bank	International economic powerful	Provide grant and Aids
22	Barrick Goldmine	Private company economically powerful	Support social services
23	Road Fund Board	Government institution	Provide grant to improve infrastructure
24	TANAPA	Government institution	Wildlife Conservation Social service provision
25	Ministries	Government ministries Financial powerful decision and directives	Support Services from different sectors

### **3.1 Strengths, Weaknesses, Opportunities and Challenges (SWOC) Analysis**

In achieving the Tarime Town Council vision, mission, strategic objectives and Targets the Town Council must strive to utilize its existing Strength and Opportunities to eradicate its Weakness and Challenges. Based on the analysis of the internal and external environment in chapter two as well as stakeholders analysis, the following is a summary of the Council with regard to its strengths, weaknesses, opportunities and challenges that need to be address and exploited/capitalized.

### **3.1.1 Strength**

- Tarime Town Council is a legal entity established on the basis of the Constitution of the United Republic of Tanzania
- Strategic Location of Tarime Town Council (Along the border)
- Presence of a well defined organization structure with good chain of command and feedback.
- Availability of competent management team
- Presence of council by laws.
- Partnership is highly recognized by communities and other stakeholders
- Good relationships with the existing stakeholders
- Availability of Trainable technical staff in their respective fields
- Availability of qualified and skilled staff
- Presence of abundance manpower mainly comprised of youths
- Team work spirit among staff members

### **3.1.2 Weaknesses**

- Lack of proper land use management
- Shortage of qualified staff
- Un-conducive working environment at ward and village level
- Inadequate staff at both lower and higher levels of the council
- Ineffective mobilization of fund from different sources.
- Policies and strategies have not been disseminated and understood by stakeholders
- Poor enforcements of laws and by- laws
- Inadequate data collection since Tarime is a new town council
- Existence of corruption behavior to some officials
- Weak information and communication technology system
- High computer illiteracy of officials at lower levels.
- Weak dissemination of laws on human rights
- Shortage of working facilities.
- Shortage of houses for staff
- Shortage of school physical infrastructure
- Shortage of books in schools which affects teaching and learning process weakness
- Shortage of office facilities weakness
- Shortage of teaching and learning materials
- In adequate motivation for teachers
- Inadequate in-service training
- Un demarcated land use for livestock grazing

### **3.1.3 Opportunities**

- Availability of abundant land resources suitable for various socio-economic activities
- Proximity to Kenya border provides the town council with a good place for marketing of various products

- Availability of financial institutions which act as a sources of funds to support community development projects
- Presence of private services providers
- Willingness of Central Government to allocate resources to the council
- Presence of good support from the Regional Secretariat Good support from different stakeholders
- Existing of donor/Development Partners willingness to support various interventions in the council.
- Availability of national strategies documents and policies
- Existence of planning/budgeting guidelines from central government.
- Community willingness to participate in development initiatives.
- Availability of Natural Resources (e.g. minerals and suitable land for agriculture)
- Availability of capital development grants

### 3.1.4 Challenges

- Low participation of the community in decision making and implementation of development projects
- Land conflicts among the communities
- Increased social and economic activities which affect the environment.
- Prevalence of livestock and crop diseases
- Environmental degradation due to poor agricultural practices
- Low price of agricultural products under free market system
- Delays in release of funds to effect development plans
- High illiteracy rate among community
- Change in demographic labour patterns resulted from discovery of mining
- Prevalence of HIV/AIDS which affect manpower
- Lack of reliable rural road infrastructures
- In adequate budget for the implementation of activities.
- Insecurity in some areas due to livestock theft
- Climate change
- Inter clan conflict due to land conflicts
- increasing population leading to conversion of grazing land into residential areas
- Politician vested interest.
- Livestock diseases outbreaks such as tick borne diseases, Rabies, CBPP.
- Conflicts among ethnic groups

### 3.2 Core Values

**Core values** are enduring beliefs that an institution and the people who inhabit it hold in common and endeavour to put into action. Values should lead the Council staff and individuals to believe that some objectives are legitimate or correct and that others are illegitimate or wrong. Core values are the prerequisite norms for effective and efficient service delivery in any organisation. The operationalisation of the Tarime Town Council strategic Plan is therefore guided by ten major core values that constitute what the council values most. These values are:

- **Integrity** -High moral values, working ethics and honor.
- **Courtesy**-Creation of friendly environment and high attention to the client's expectation
- **Accountability and responsibility** -Obligation to perform duties as per set rules and regulations
- **Impartial**- A Tarime Town Council Councilor or staff shall deliver their services to the community without any stigma to people living with HIV/AIDS and people with disabilities.
- **Transparency**- A Tarime Town Council's Councilor or staff shall be fair, open, truthful, and honest and shall conduct his/her duties in such a manner that will protect the Council's integrity
- **Customers focus/driven**- Offering services by prioritizing customer needs.
- **Result oriented** - Handover to fulfill the expected goals in aspects of his/her duties and responsibilities
- **Corruption**- Employees unties with bribes and corruption attractions.
- A Tarime Town Council's Councilor or staff shall discharge his/her responsibilities efficiently, diligently with discipline and honesty.
- A Tarime Town Council Councilor or staff shall abide to the requirements of his/her respective code of act No. 8 of 1982, section 20A of act No. 10 of 1982 , public service code of conducts and any other legislations which govern public service affairs.

## CHAPTER FOUR

### VISION, MISSION, STRATEGIC OBJECTIVES, KEY TARGETS, STRATEGIES AND PERFORMANCE INDICATORS

#### 4.0 Vision

The Vision of Tarime Town Council is to ensure that its people maintain peace, good governance and have sustainable development by 2025.

#### 4.1 Mission

Tarime Town Council is committed to provide quality socio-economic services to its community through adhering principles of good governance, effective and efficient use of available resources for sustainable development.

#### 4.2 Strategic Objectives

- Improved services and reduced HIV/AIDS infections
- Increased quantity and quality of social services and infrastructure
- Improved access, quality and equitable social services delivery.
- Enhanced, sustained and effective implementation of the National Anti-corruption strategy
- Enhanced good governance and administrative services
- Improved emergence preparedness and disaster management
- Improved social welfare, gender and community empowerment
- Quality and quantity of economic services and infrastructure improved
- Natural resources and environmental management improved

#### 4.3 Strategic Objectives, Result area, Key targets, Strategies and Performance Indicators

##### 4.3.1 Strategic objective 1

- Enhanced good governance and administrative services
- Improved access, quality and equitable social services delivery.
- Increased quantity and quality of social services and infrastructure
- Improved services and reduced HIV/AIDS infections

#### 4.3.1 Result Area: Planning Statistics and Monitoring

Strategic Objectives	Targets	Strategies	Performance Indicator
Enhanced good Governance Administration services	Planning office equipped with working tools and staff benefits facilitated by June 2016	Ensure availability of working tools and staff benefits	Number of computer laptop, printer, chairs, file cabinet, Photocopy, machine, scanner and tables purchased
	Working capacity of 15 employees in Tarime Town Council strengthened by June 2016	Train Tarime Town Council employees for second phase of planning and budgeting course (Plan Rep3)	Number of employees attended second phase planning and budgeting(Plan Rep3)
	Implementing, monitoring and evaluation systems ensured by June 2016	Planning office employees attend short and long course for skill development	Number of planning officer employees attended short and long course
Improved services and reduced HIV/AIDS infections	HIV/AIDS mitigation measures to planning, statistics monitoring staff and other development stakeholders strengthened by June 2016	Conduct HIV/AIDS sensitization meetings to 20 planning, statistics and monitoring staff and other stakeholders	Number of planning, statistics staff and other stakeholders attended
Quantity and quality of social services and infrastructure improved	Community development activities supported by June 2016	Support and Implement Community development projects	Number of community development projects supported
	Statistical data collected and submitted to National Bureau of Statistics (NBS) by June 2016	Collect and submit statistical data to National Bureau of Statistics	Amount of data submitted to NBS
Improved emergence preparedness and disaster management	Community in Tarime Town Council enhanced and equipped with emergence preparedness and	Felicitate community on emergence preparedness and disaster management Facilitate Tarime Town fire extinguisher motor	Number of disasters mitigated Number of fire extinguisher motor vehicle purchased

Strategic Objectives	Targets	Strategies	Performance Indicator
	disaster management by June 2016	vehicle for disaster management	

#### 4.3.2 Strategic objective 2

- Increased quantity and quality of social services and infrastructure
- Enhanced, sustained and effective implementation of the National Anti-corruption strategy
- Enhanced good governance and administrative services
- Improved services and reduced HIV/AIDS infections

##### 4.3.2.1 Result Area: Human Resource and Administration

Strategic Objectives	Targets	Strategies	Performance Indicator
Increased quantity and quality of social services and infrastructure	Administration office equipped with working tools and good working condition improved by June 2016.	12 Councilors and other staff paid monthly allowance. Equipment and working tools for administration office purchased	Number of councilors paid monthly allowance. Number of equipment and working tools purchased
	6 Vehicles repaired and maintained by June 2016.	Repair 6 motor vehicle	Number of Vehicles repaired and maintained
Enhanced, sustained and effective implementation of the National Anti-corruption strategy	22 employees not existing on payrolls paid salaries by June 2016.	Solicit funds and pay 22 employees who are not existing in payrolls	Number of employees paid salaries
	The Headquarter Office constructed by June 2016	Solicit funds and construct council headquarters' office	Headquarter Office constructed.
Enhanced good governance and administrative services	Operations and maintenance of TD and other offices facilitated with working equipments by June 2016.	Procure working tools for 5 offices	Number of tools purchased

Strategic Objectives	Targets	Strategies	Performance Indicator
Increased quantity and quality of social services and infrastructure	TD and Town Chairman facilitated to attend public vocations , meetings and seminars by June 2016	Facilitate TD and Town chairman to attend public occasions , meetings and seminars	Number of occasions, meeting and seminars attended
	4 officers facilitated to attend meeting, courses and seminars by June 2016.	Facilitate 4 Officers to attend meeting, courses and seminars	Number of officials attended meeting, courses and seminars
	4 Drivers facilitated to attend short courses to NIT college by June 2016.	Finance 4 drivers to attend short courses to NIT college	Number of drivers attended and completed short courses at NIT college
Enhanced, sustained and effective implementation of the National Anti-corruption strategy	2 Personal Secretary facilitated to attend short courses by June 2016.	Finance 2 Personal Secretary to attend short courses	Number of personal secretary attended short courses
	4 ALAT meetings facilitated by June 2016.	Finance 4 ALAT meetings	Number of officers facilitated to attend meeting, courses and seminars.
	LVRLAC meetings facilitated by June 2016.	Finance LVRLAC meetings	Number of people attended LVRLAC meetings
Enhanced good governance and administrative services	2 committee clerks facilitated to attend short courses by June 2016.	Facilitate 2 committee Clerks to attend short courses	Number of clerks attended short courses
	Conducive working environment to 78 staffs ensured by June 2016.	Purchase 19 motorcycles for the ward and villages executives	Number of motorcycles purchased for the ward and villages executives

Strategic Objectives	Targets	Strategies	Performance Indicator
<p>Increased quantity and quality of social services and infrastructure</p> <p>Enhanced, sustained and effective implementation of the National Anti-corruption strategy</p> <p>Enhanced good governance and administrative services</p>		<p>Purchase 4 court attire for lawyer.</p> <p>Facilitate 3 days council employees workshop on their day to day responsibilities</p> <p>Facilitate 2 days workshop to 12 councilors on good governance and responsibilities</p> <p>Facilitate 7 days study tour on Town Council Resources Management and operation to 12 councilor's members and 10 selected head of department</p>	<p>Number of court attire purchased</p> <p>Number of council employees attended workshop</p> <p>Number of councilors attended on workshop on good governance and responsibilities</p> <p>Number of staff attended the study Tour</p>
	<p>Departmental service delivery to 66 Employees enhanced by June 2016.</p>	<p>Enhance departmental service delivery to 66 employees</p> <p>Facilitate travel of 20 new employees</p>	<p>Number of employees facilitated to attend meetings, courses and seminars.</p>
	<p>Working Environment to 6 Wards and Council Headquarter improved by June 2016</p>	<p>Facilitate 6 Wards and Council Headquarter with working tools</p> <p>Facilitate sound network at hall</p>	<p>Number of Wards and Council Headquarter facilitated with working tools</p> <p>Level of network installed</p>
	<p>Human Resources Management supported by June 2016.</p>	<p>Maintain of Two Departmental vehicles facilitated</p> <p>Equip Human resource Management officers</p>	<p>Number of Departmental vehicles maintained.</p> <p>Human resource Management officers equipped with working facilities.</p>

	<p>Tarime Town council Legal meetings conducted at 100% by June 2016.</p>	<p>Facilitate 6 Town Economic, works and Environment, Education and Health, CMAC committees meetings</p> <p>Facilitate 4 Disciplinary committee meetings</p>	<p>Number of Town Economic, works and Environment, Education and Health, CMAC meetings facilitated.</p> <p>Disciplinary committee meetings facilitated</p>
	<p>14 Town Management Team and Town Council Finance committee meetings facilitated by June 2016</p>	<p>Facilitate 14 Management Team meetings and Town Council Finance committee meetings</p>	<p>Number of meetings for Town Management and Team Council Finance committee facilitated.</p>
<p>Improve services and reduce HIV/AIDS infection</p>	<p>Employees living with HIV/AIDS supported by June 2016.</p>	<p>Facilitate meeting conducted to employees on voluntary HIV/AIDS testing</p> <p>Support HIV/AIDS employees with nutrition food.</p>	<p>Number of employees attended meeting on voluntary HIV/AIDS testing</p> <p>Number of HIV/AIDS employees supported with nutrition food.</p>

### 4.3.3 Strategic objective 3

- Improved access, quality and equitable social services delivery.
- Increased quantity and quality of social services and infrastructure

#### 4.3.3.1 Result Area: Agriculture, Irrigation and Cooperatives

Strategic Objectives	Targets	Strategies	Performance Indicator
Improved access, quality and equitable social services delivery.  Increased quantity and quality of social services and infrastructure	Administrative staff requirement ensured by 2016	Purchase office furniture's and equipments	Number of furniture's purchased
		Procure transport facilities	Number of transport facilities purchased
		Assure legal payments and incentives to agriculture department staff	Number of staff paid
	Monitoring and evaluation of agriculture activities strengthened by 2016	conduct meetings, supervision and follow up	Number of meetings, supervision and follow up conducted
Increased quantity and quality of social services and infrastructure	Agriculture infrastructure in 6 wards strengthened by 2016	Complete construction of 1 oxenization training centre, 1 resource centre and construct 12 modern storage facilities	Number of Infrastructures constructed
	Extension services provision to small scale farmers increased from 50% to 85% by 2016	Provide 9 trainings to extension staff and farmers groups	Number of farmers attended
		Establish 26 groups of farmers by 2016	Number of groups established
		Establish 13 Farmer Field School (FFS)	Number of FFS established
		Attend 3 exhibition days	Number of exhibition
Attend 3 World food day		Number of food days attended	

Strategic Objectives	Targets	Strategies	Performance Indicator
<p>Improved access, quality and equitable social services delivery.</p> <p>Increased quantity and quality of social services and infrastructure</p>	<p>Food security at household level in 13 villages strengthened by 2016</p>	<p>Advise village government to impose bylaws on proper use of harvested food crops</p> <p>Encourage farmers to cultivate drought tolerant food crops (sweet potatoes, cassava, sorghum)</p> <p>Train farmers on improved storage condition of harvested crops</p>	<p>Number of village government formulate bylaws on maintaining food security</p> <p>Number of acreages cultivated</p> <p>Number of training conducted</p>
	<p>Farmers knowledge on proper agronomic practices in 3 wards strengthened by 2016</p>	<p>Strengthen farmers knowledge on proper agronomic practices</p>	<p>Number of farmers strengthened on proper agronomic practices in 3 wards</p>
	<p>Cash crops production increased from 1ton/ha – 3tonnes/ha, 0ton/ha – 2tonnes/ha of coffee and tea respectively by 2016</p>	<p>Establish one mother garden of clonal coffee</p> <p>Establish one mother garden of clonal tea</p> <p>Distribute clonal coffee and tea seedling to farmers</p> <p>Supervise and monitor plantation of coffee and tea</p>	<p>Number of seedlings of clonal coffee distributed to farmers</p> <p>Number of seedlings of clonal tea distributed to farmers</p>
	<p>Good land management and soil fertility maintained in 13 villages by 2016</p>	<p>Encourage farmers to use farm yard manure, intercropping, and agro-forestry practice in their fields</p>	<p>Number of farmers encouraged to use farm yard manure, intercropping, and agro-forestry practice in their fields</p>
	<p>Small scale farmers dealing with irrigation farming empowered by modern tools by 2016</p>	<p>Demonstrate small scale irrigation technology to 8 groups of farmers</p>	<p>Number of Small scale farmers empowered by modern tools</p>

Strategic Objectives	Targets	Strategies	Performance Indicator
		<p>Supply 8 modern irrigation tools to small scale farmers</p> <p>Empower 8 groups of farmers to purchase irrigation equipments</p>	<p>Number of groups of farmers empowered</p>
<p>Improved access, quality and equitable social services delivery.</p>	<p>Availability and distribution on time of Agricultural inputs to farmers improved by 2016</p>	<p>Prepare agricultural inputs needs on time</p> <p>Coordinate agricultural inputs supply and agricultural input stockiest-network in the council</p>	<p>Number of beneficiaries</p>
<p>Increased quantity and quality of social services and infrastructure</p>	<p>Accessibility to financial support of 15 SACCOS and AMCOS assured by 2016</p>	<p>Conduct Seminars on saving and credit regulations to 15 SACCOS</p> <p>Negotiate with financial institutions to support SACCOS and AMCOS</p> <p>Coordinate to Regional Registrar registration of newly transformed NGOs and CBOs to SACCOS</p>	<p>Number of SACCOS got seminar</p> <p>Number of SACCOS and AMCOS financed</p> <p>Number of SACCOS registered</p>
	<p>SACCOS and AMCOS auditing report prepared and submitted to cooperative members general meeting by 2016</p>	<p>Conduct annual auditing to 15 SACCOS and 3 AMCOS</p> <p>Inspect and monitor 20 SACCOS and 3 AMCOS</p>	<p>Number of SACCOS and AMCOS audit report prepared and submitted</p>
	<p>Cooperative office equipped with working tools and equipments by 2016</p>	<p>Purchase one computer set(Laptop)</p> <p>Purchase 4 chairs and 1 table</p>	<p>Number working tools and equipments equipped with cooperative office by 2016</p>

Strategic Objectives	Targets	Strategies	Performance Indicator
Improved access, quality and equitable social services delivery.		Purchase one Cupboard	
	Cooperative staff officers trained by 2016	Facilitate one cooperative officer on Post Graduate Diploma	Number of cooperative officers trained by 2016
Increased quantity and quality of social services and infrastructure			

#### 4.3.4 Strategic objective 4

- Increased quantity and quality of social services and infrastructure
- Improved access, quality and equitable social services delivery.

##### 4.3.4.1 Result Area: Livestock and Fisheries

Strategic Objectives	Targets	Strategies	Performance Indicators
Increased quantity and quality of social	Natural resources, environment improved by June 2016	Conduct regular fisheries patrol within the Council	Number of community members complying with fisheries standard,

Strategic Objectives	Targets	Strategies	Performance Indicators
services and infrastructure  Improved access, quality and equitable social services delivery	Fisheries resources management enforced by June 2016	Stakeholders (Fishermen, Police Officers and Community) trained on fisheries standard, rules and regulations.	rules and regulations
	Fish farming at 6 wards strengthen by June 2016	Establish fish farming groups in 6 villages  Provide modern fish farming husbandry to fish farming groups	Number of fish farmers groups established  Number of fish farming groups adopting modern fish farming husbandry
	Fisheries section working condition improved by June 2016	Facilitate long and short course to fisheries staffs	Number of fisheries staffs attended long and short course
	Fisheries office equipped with working tools by June 2016	Set aside budget for procuring fisheries office working tools  Procure working tools for fisheries office	Number of working tools procured

#### 4.3.5. Strategic objective 5

- Improved access, quality and equitable social services delivery.
- Improved services and reduced HIV/AIDS infections
- Increased quantity and quality of social services and infrastructure

#### 4.3.5.1 Result Area: Primary Education

Strategic Objectives	Targets	Strategies	Performance Indicators
Improved access, quality and equitable social services delivery.	Pre-primary and standard one enrollment rate maintained at 100% by June 2016	Sensitize 27 school committee on enrollment and parents Audit 27 Primary schools	Number of school committee sensitized  Number of primary schools audited
		Monitor 27 schools thoroughly	Number of primary schools monitored
Improved services and reduced HIV/AIDS infections	Academic and work performance improved to 10 administrative staffs by June 2016	Support four staff for academic upgrading 2 degree and 2 masters level	Number of academic staff supported
Increased quantity and quality of social services and infrastructure		Support 6 administrative staff to attend short courses on computer literacy skills	Number of staff supported
		Facilitate 120 teachers on school operations and better performance in mock and national examinations	Number of teachers facilitated
		Facilitate 11 administrative staff with payments and benefits	Number of administrative staff facilitated with payments and benefits
	Academic and work performance improved to 10 administrative staffs by June 2016	Support 30 teachers for in service training out doors	Number of teachers supported
		Facilitate Teachers resource centre with teaching and visual aids	Types and number of teaching aids supplied
		Train 60 mathematics	Number of teachers

Strategic Objectives	Targets	Strategies	Performance Indicators
Improved access, quality and equitable social services delivery.		and science teachers	trained
	Educational meetings attended, quarterly reports prepared and submitted timely by June 2016	Submit quarterly and other educational reports to RC PMOPALG and MOEVT  Attend Quarterly Regional and National meetings	Number of reports prepared  Number of meetings attended
	Teachers academic standards and work performance improved in 27 schools by June 2016	Train 27 teachers in door course  Train 71 teachers in basic computer knowledge  Establish 1 teachers resource centre	Number of teachers trained  Number of teachers trained  Number Teachers resource centre established
Improved services and reduced HIV/AIDS infections			
Increased quantity and quality of social services and infrastructure	Town illiteracy reduced from 14% to 10% by June 2016	Facilitate Mara Region Adult Education commemoration week	Commemoration of Mara Region Adult Education week facilitated
		Contribute Legal fees on Mara day Adult education Commemoration	Amount of legal fee paid
		Facilitate 6 Wards education Coordinator's offices operations	Number of Wards Coordinators' offices facilitated
		Facilitate 50 facilitators with Honorarium	Number of facilitators facilitated
	Town illiteracy reduced from 14% to 10% by June 2016	Conduct on job training (MWAKEM) to 27 school teachers	Number of teachers trained
		Facilitate 620 teachers training of (MHAMO WA RUWAZA)	Number of teachers trained
	Financial support to 10 HIV/AIDS in service victim teachers Attending	Facilitate 10 HIV/AIDS victims teachers to attend monthly clinic	Number of HIV/AIDS victim teachers facilitated

Strategic Objectives	Targets	Strategies	Performance Indicators
Improved access, quality and equitable social services delivery.	monthly clinic provided by June 2016		
	Conducive working environment to 10 administrative staff ensured by June, 2016	Supply office working facilities  Facilitate Departmental planning, budget and PE  Renovate 1 Education HQ building  Buy 1 motor vehicle	Number of office facilities supplied  Departmental planning, budget and PE Facilitated  HQ building renovated  Number of motor vehicles bought
Improved services and reduced HIV/AIDS infections	Teaching and learning infrastructures improved in 27 schools by June 2016	Construct 54 classrooms in 27 school	Number classrooms constructed
Increased quantity and quality of social services and infrastructure		Construct 18 teacher houses in 27 schools	Number of teacher houses built
		Purchase 3483 desks for 27 schools	Number of desks purchased

	Principles of good governance adhered during the elections by June 2016	Create awareness on presences of residence book at hamlet level.	Number of voters adhering Principles of good governance
	Necessary materials needed for elections in the council purchased by June 2016	Receive voting equipments ( voting boxes, stamps and lamps)	Number of materials purchased
	VEOs and WEOs sensitized in assisting election by June 2016	Prepare lesson plans on election for and Conduct training to VEOs, MEOs, WEO's and hamlets leaders	Number of VEOs, MEOs, WEOs and hamlet leaders attend training
	Polling station accessible to all voters in the council by June 2016	Divide voting station with electoral committee guidelines  Identify of voting station at hamlets levels.  Prepare maps of voting station (council level)	Number of polling stations
Good governance and administrative services enhanced	Voters registration book Updated by June 2016	Screening on residence books applications  Distribution and inspection of residence books	Voter registration book updated
	Emphasized and encouraged use of residence book by June 2016	Impose budget for accessories (like computer and printers)	Number of residences registered

Strategic Objectives	Targets	Strategies	Performance Indicators
	Council office furniture Purchased by 2016	Prepare election consistency maps Financial request for election office constructions	Number of furniture purchased
	Council election office and place to store electoral equipment Constructed by June 2016	Mobilize of financial resources	Number of offices constructed
	The citizenship book updated by 2016	Facilitate the update of citizenship book	Number of people registered in the citizenship book

## **CHAPTER FIVE**

### **IMPLEMENTATION, MONITORING, EVALUATION AND REVIEW FRAMEWORK**

#### **5.1 Implementation**

The responsibility and accountability of the Town Executive Director (TED), who is the Chief Executive Officer of the Council, will be a base for successful implementation of the strategic plan. TED shall be responsible and accountable for the implementation of the Tarime Town Council's Strategic Plan (2013/2014 – 2015/2016). The TED with the support of the Management team shall regularly report to the Full Council with regards to the Plan implementation and its overall performance.

This Strategic Plan cuts across all service areas of Tarime Town Council and its implementation conform to the Council's institutional structure, it is advisable that Planning Department is dedicated to coordinate and provide oversight on the implementation, monitoring and evaluation of the strategic activities. Thus, the respective Departments and Units/Sections shall be responsible for the day to day operationalisation of the Strategic Plan with a helping hand from the key heterogeneous stakeholders from within and outside the Town Council.

#### **5.2 Monitoring**

Monitoring and evaluation are essential feedback mechanisms within the adaptive management framework to keep the strategic plan dynamic and responsive to changing conditions. Monitoring and evaluation provide the public and partners with information on the progress and results of the strategic plan implementation. Monitoring of the Tarime Town Council's Strategic plan will include both simple observation of the results of management activities and more rigorous and systematic data collection, to provide a basis for periodic evaluation of Plan.

Therefore monitoring implementation of the plan shall be a continuous process. Its objectives shall include the following:

- Determine whether implementation is focused on the fulfillment of the mission of the Council
- Facilitate review of the implementation process
- Facilitate feedback to management which is necessary for decision making
- Ensure that objectives are being accomplished within the expected timeframe and taking necessary measures for timely implementation
- Ensure that the activities are carried out as planned, and that any deviations are corrected promptly
- Ensure that financial discipline as a cornerstone for proper and prudent use of resources is sustained.

Monitoring reports shall be prepared quarterly, semi-annually and annually and shall be presented by the Head of the Planning Department to the organs representing Tarime town Council Community such as the CMT and Full Council. In order that the progress reports presented are adequately informative, precise and therefore credible, Table 51 shall guide the format of the progress reports.

**Table 5.1: Example of quarterly progress report**

S/No.	Strategic objective	Planned activities	Planned budget	Actual expenditure	Planned targets	Achievements	Remedial action

A part from reporting at the various Council committees, there shall be one internal review meeting which will be conducted annually, bringing together the representative of all internal stakeholders to review the strategic plan implementation process. Once in two years, these meetings will also involve external stakeholders. These meetings together with the discussions in various committees will provide opportunities to enhance awareness and ownership of the strategic plan.

### 5.3 Evaluation

In order to assess the Plan performance, there shall be annual Plan Evaluation exercises for the entire plan period. In order to match activity funding with plan implementation, evaluation and review; is recommended that the evaluation exercises are conducted at the end of the financial year. Two types of evaluations are further recommended. These are Interim Evaluation to be conducted after two and half years and to be carried out by internal evaluators. The second type of evaluation to be carried at the end of the planned period (three years) using external evaluators with the assistance from internal evaluators. These reports, including the quarterly ones, shall form the basic inputs of updating and rolling over the planned but unexecuted activities of the Strategic Plan activities.

Specifically, the evaluation of the Tarime Town Council Strategic Plan (2013/14 – 2015/16) shall largely aim at:

- (i) Establishing whether the Council is mobilizing adequate resources and the use of such scarce resources is justifiable.
- (ii) Assessing the reasons given with regards to success or failure in achieving implementation targets
- (iii) Understanding whether the Plan implementation is achieving desired impact in fulfilling the Tarime Town Council mission

During evaluation, measurable factors (performance indicators) or evidence that shows the extent of the strategic plan implantation progress will be developed. These will be a base to determine success or failure of the plan. Moreover, these will help in collecting useful data and in search for required evaluation tools and information sources. Performance indicators as a unit of success will be both **quantitative** (Number of people served with a particular service and number of services available) and **qualitative** (such as positive or negative feedback, problems, complaints, and comments).

### 5.4 Review

Plan review is important in order to remain focused in realizing the Tarime Town Council core missions, strategic objectives, targets and therefore stay the course to the vision. Plan reviews shall be triggered by the results of evaluation activities. That is, plan reviews are meant to be responsive to the shortcomings in

the course of plan implementation. There shall be minor plan reviews annually, medium plan reviews after one and half years and a major Plan review after three years.

### **5.5 Assumptions and Risks**

For the Strategic objectives of this strategic plan (2013/2014-2015/2016) to be achieved, the following are the major assumptions which need close monitoring and timely response by Tarime Town Council management.

- Continued conducive political and socio-economic environment
- Continued willingness of stakeholders to support and respond effectively to the needs of Tarime Town Council in implementing the strategic plan
- Improved conditions for effective staff retention and motivation.
- Timely disbursement of fund from Central government
- Continued provision of technical support, policies, guidelines and financial support from respective ministries
- Continues stability and improved economic growth of the country
- Continued good leadership at the Town council level

The major risk is the availability of adequate financial resources and timely disbursement of financial support to implement the planned activities.
